BRAC BANK SOCIAL BOND FRAMEWORK

1. Introduction

1.1 BRAC Bank's Commitment to Sustainability

BRAC Bank is deeply committed to advancing the United Nations Sustainable Development Goals (SDGs), the Bangladesh Vision 2041, and the country's Nationally Determined Contributions (NDCs). In alignment with these global and national frameworks, BRAC Bank has identified key priority areas to further contribute to the nation's development agenda and the achievement of the SDGs.

1.2 Social Responsibility Focus Areas:

BRAC Bank is dedicated to making a positive impact in Bangladesh by addressing the country's socio-economic challenges. Our key focus areas include:

- Job Creation through CMSME
- Gender Equality
- Affordable housing
- Food security
- Financial Inclusion
- Healthcare Access

Through these initiatives, BRAC Bank aims to contribute to a more equitable and sustainable future for Bangladesh.

1.3 BRAC Bank's Environmental and Social Risk Management Approach

BRAC Bank is undergoing a significant transformation to integrate sustainability into all functions and business areas. Promoting businesses and innovations with sustainability as a core value is a central focus of our investment and lending policies and guidelines. The Bank's Sustainable Financing Framework marks a significant step in embedding environmental and social considerations throughout our operations.

As part of our lending strategy, we ensure that our clients comply with all relevant environmental and social regulations, as periodically issued by the Department of Environment, sector-specific regulatory agencies, and other relevant government bodies.

To strengthen our commitment to environmental stewardship and social impact, BRAC Bank has established a comprehensive set of guidelines as part of our sustainability risk management process. These policies and guidelines direct the bank's approach to conducting end-to-end environmental and social impact risk assessments throughout the lending process, from credit origination and business appraisal to approvals and monitoring stages.

In line with our sustainability objectives, our loan appraisal process includes the screening of Environmental and Social (E&S) risks using specialized E&S risk assessment tools to identify, manage, and address these risks. Additionally, BRAC Bank senvironmental & Social Impact Management Policy, which is part of our broader Enterprise Risk Management Framework, guides the impact assessment process during loan evaluations. BRAC Bank also has a Climate Risk Policy, which is aligned

with the Environmental & Social Impact Management Policy and the Bangladesh Bank's (BB) guidelines on managing climate-related financial risks.

1.4 Social Bond Framework

This framework establishes the foundation for BRAC Bank PLC to issue and, where applicable, list social bond as a financial instrument. This instrument provides investors with an opportunity to invest in assets that generate positive social impact in Banaladesh.

The framework is designed in accordance with international best practices and guidelines from leading organizations like the International Capital Markets Association (ICMA). It includes:

Social Bond Principles (SBP) 2025

By adhering to these principles, BRAC Bank aims to drive sustainable development through impactful financial solutions that align with global sustainability goals. BRAC Bank from time-to-time update or amend the Framework according to global standards. BRAC Bank will seek a Second Party Opinion (SPO). The development of this Framework, with the intention of issuing Social Bond executing social financing under it, is consistent with bank's goal of contributing to the achievement of the UN's Sustainable Development Goals (SDGs), part of the UN's 2030 Agenda for Sustainable Development. The UN SDGs are a collection of 17 goals designed to address the most pressing social, economic and environmental sustainability issues facing society today.

Under this framework, BRAC Bank will issue this instrument:

 Social Bonds: The net proceeds from these instruments will be exclusively used to finance and/or refinance eligible loans that meet the criteria for eligible social projects, in line with BRAC Bank's commitment to social development.

2. Social Bond Framework

2.1 Scope

BRAC Bank will regularly review and update this framework to align with market developments, incorporating best practices in evaluation, management, and reporting. This framework has been developed in accordance with the ICMA Social Bond Principle covering the following key pillars:

- I. Use of proceeds
- Process for project evaluation and selection
- Management of proceeds III.
- Reporting IV.

2.2 Use of proceeds

An amount equivalent to the net proceeds from any Sustainable Financing Instrument will be allocated to finance or refinance, in whole or in part, new or existing Eligible Social Projects ("Eligible Projects"). These may include loans extended by BRAC Bank Vor investments and expenditures incurred by BRAC Bank PLC to develop social es and projects. Eligible disbursements may be made up

back period) prior to the issuance date and up to 36 months following the issuance of any Sustainable Financing Instrument. Of the total proceeds, 70% or more will be allocated to future projects, while the remaining (maximum 30%) will be used to refinance past disbursements within the look-back period.

BRAC Bank PLC's Eligible Social Project Categories will contribute to one or more of the following Objectives:

- Enhancing access to essential services including healthcare for marginalized people.
- Supporting affordable housing projects for low-income individuals and vulnerable communities.
- Promoting employment generation through the financing of cottage, micro, small and medium-sized enterprises (CMSMEs) especially those who are led by women, youth, and underrepresented groups.
- Advancing food security and sustainable livelihood by financing in agriculture.
- Supporting projects that target socio-economic advancement and empowerment of underserved people including people with disabilities, displaced people and ethnic minority.

BRAC Bank PLC's Eligible Social Project Categories will contribute to one or more of the following objectives:

- 6. Destruction of High Conservation Value areas. Destruction means the (1) elimination or severe diminution of the integrity of an area caused by a major, long-term change in land or water use or (2) modification of a habitat in such a way that the area's ability to maintain its role is lost.
- 7. Radioactive materials.
 This does not apply to the purchase of medical equipment, quality control (measurement) equipment or any other equipment where the radioactive source is understood to be trivial and/or adequately shielded.
- 8. Unbounded asbestos fibres.
 This does not apply to purchase and use of bonded asbestos cement sheeting where the asbestos content is less than 20%.
- 9. Pornography or prostitution.
- 10. Racist and anti-democratic media
- 11. Commercial logging operations for use in primary tropical moist forest
 - Illegal logging, and logging operations or conversion of land for plantation use in primary tropical moist forests.
- Production or trade in wood or other forestry products other than from sustainably managed forests
- 13. Production of trade in radioactive materials and unbounded asbestos fibres.
- 14. Production or activities that impinge on the lands owned, or claimed under adjudication, by Indigenous Peoples, without full documented consent of such peoples.
- 15. Ship breaking/ trading activities which include:
 - Ships with prevalent asbestos use (for e.g. passenger cruise)
 - Ships listed on the Greenpeace blacklist*
 - Ships not certified "gas free" for hot work.
- 16. In the event of any of the following products form a substantial part of a company's primary operations, or a financial institution, investment fund or company's financed business activities.
 - Alcoholic beverages (excluding beer and wine)
 - Tobacco
 - Weapons and munitions
 - Gambling, casinos, and equivalent enterprises.

3. Process for project evaluation and selection

The process for project evaluation and selection follows a three-step approach, namely, asset origination, asset screening and allocation, and asset approval.

Origination of Assets: Assets are originated by the Asset Originating Businesses such a SME, Re ail and Wholesale and Institutional banking division.

Treetor & Drate

Screening of Social Loans/ Assets and Selection: The asset origination businesses ensure adherence to BRAC Bank's Environmental and Social Management System (ESMS), which will be periodically updated to align with local and international E&S good practice, including the IFC Performance Standards (where applicable), and screen assets against the investment categories and eligibility criteria detailed in this framework. Loans/ Assets that do not meet the defined eligibility criteria in the framework are removed. The environmental and social risks have been identified through ESMS by BRAC Bank. Furthermore, loans/ assets that are deemed ineligible in relation to ESG Assessment process under ESMS are also removed. The remaining loans/assets/investments/expenses are further evaluated by the sustainability experts within the bank, after which the qualifying ones are considered as potential Sustainable Loans/Assets.

Assets approval: The final approval of the selection and evaluation of projects eligible for social bond throughout the life of BRAC Bank's Social bond issuances is owned by a subcommittee formed and approved by BRAC Bank's Sustainable Finance Committee. Identified eligible assets are therefore approved by this subcommittee. Approved eligible assets are allocated to sustainable instruments by the Treasury team. The respective committee together with Treasury will be responsible for governing the framework to ensure consistency of approach and oversight. The Committee and Treasury are responsible for ensuring that eligible assets/projects are not allocated to more than one social bond/loan at a given time.

4. Management of Proceeds

An amount equivalent to the net proceeds from any Sustainable Financing Instrument will be credited to the Bank's accounts and monitored through the Treasury Management System and the Bank's accounting system, ensuring effective tracking of social proceeds. The Treasury Department will be responsible for overseeing these processes, in coordination with the Finance Department, and will also manage any unallocated proceeds until their full disbursement.

The ESG & Sustainable Finance will be responsible for managing the allocation of proceeds, with support from relevant departments across the Bank. Until the full allocation of an amount equivalent to the net proceeds from any Sustainable Financing Instrument to Eligible Investments, the unallocated proceeds may be temporarily held in cash, cash equivalents, or other liquid instruments, at BRAC Bank's discretion. Payments of principal and interest on any Sustainable Financing Instruments may be made from the Bank's general accounts.

The full allocation of proceeds from any Sustainable Financing Instrument is expected to be completed as soon as possible, and no later than 36 months from the issuance date. BRAC Bank will take all necessary measures to ensure that the use of proceeds adheres to internal protocols and is clearly linked to Eligible Investments. For as long as there is an outstanding balance, an equivalent amount will be allocated to Eligible Investments. Periodic adjustments will be made to reflect any repayments. Proceeds may be managed either on a per-instrument basis or through a portfolio approach across nultiple instruments. The allocation and tracking of proceeds will be subject to pendiareview by an external auditor.

6. Verification

BRAC Bank will obtain and publicly disclose a pre-issuance external review from an independent consultant with recognized environmental and/or social expertise, providing a Second Party Opinion (SPO) on the expected social benefits of this Framework. The SPO will be made available on the Investor Relations section of the BRAC Bank website, as well as on the website of the SPO provider. In addition, as outlined above, BRAC Bank is committed to providing a post-issuance review of the management of proceeds. This review may be conducted by the same consultant, an external auditor, or other qualified third party.

7. Review

BRAC Bank will periodically review this Framework to ensure its continued alignment with evolving market best practices and updated versions of relevant principles, as they are released. Additionally, the Framework will be reviewed in the event of any material changes to the scope or categories of Eligible Projects. Such reviews may lead to updates or amendments to the Framework. Any updates that are not minor in nature will be subject to prior approval by a qualified Second Party Opinion (SPO)

Any future version of this Framework will maintain or enhance the current levels of transparency, reporting, and external verification. Updated versions will be published on the BRAC Bank website and will supersede this document.

- Low-income population: This category is considered monthly income level ranging from BDT 30,000 to BDT 97,0001
- Small-scale producers: Small-scale producers in Bangladesh are typically smallholder farmers who own or operate a small plot of land. While the exact definition can vary, a common benchmark is farm households that cultivate between 5 to 249 decimals of land.
- Underserved and vulnerable individuals: These groups are defined as individuals and communities with limited access to financial services and economic opportunities. It includes those living below the poverty line, marginalized populations, and individuals who earns less than USD 100 in a month are financially excluded from the formal banking system.
- People with disabilities: This category refers to individuals with physical, mental, intellectual, or sensory impairments that may hinder their full and effective participation in society. Bangladesh Bank's financial inclusion policies recognize them as a vulnerable group requiring special consideration for access to finance and employment.
- Unemployed and sick people: The unemployed are individuals of working age who are not employed but are actively seeking work. Sick people, particularly those with serious or chronic illnesses, are considered vulnerable due to their reduced ability to earn an income and high healthcare costs.

1. MANAGEMENT'S PERCEPTION & ANALYSIS ON RISK FACTORS

1.01 Interest Rate Risk

The banking book comprises assets and liabilities primarily acquired through relationships or for stable income and legal obligations, generally held until maturity or payment by the counterparty. The primary emphasis in the banking book is on earnings or variations in economic value. Interest rate risk refers to the potential decline in a bank's financial position due to changes in interest rates over time. This risk arises from the core banking activities of a bank.

Management's Perception

BRAC Bank PLC. effectively manages its Interest Rate Risk through various strategies. These include conducting Market Trend Analysis, Interest Rate Sensitivity Analysis, and duration GAP Analysis. The bank's Asset Liability Management Committee (ALCO) regularly evaluates the interest rate risk associated with its banking book, while the Asset Liability Management (ALM) Unit is responsible for measuring and monitoring this risk. ALM analyzes interest rate sensitivity by calculating the GAP, which represents the difference between Rate Sensitive Assets and Rate Sensitive Liabilities. Based on this analysis, necessary adjustments are made considering market dynamics and predictable events that may impact the money market. BRAC Bank also considers interest rate risk when pricing its products and offers floating or variable rate products to better manage this risk.

1.02 Exchange Rate Risk

Exchange Rate Risk pertains to the possibility of fluctuations in earnings caused by changes in exchange rates, unfavorable currency holdings or positions, and market volatility. If the local currency strengthens against major foreign currencies and the bank possesses a substantial net long position in those currencies, it may suffer financial losses. Likewise, if the local currency weakens against major foreign currencies while the bank maintains a net short position in those currencies, it may also face potential losses.

Management's Perception

BRAC Bank effectively handles exchange rate risk through the following measures:

- i. It establishes specific limits on open foreign exchange positions.
- ii. It continuously monitors the open position against these limits.
- iii. It implements and monitors a stop loss mechanism.

By keeping foreign exchange risks at minimum levels, BRAC Bank ensures the smooth execution of foreign trade and remittance transactions on behalf of its customers. The bank follows a board approved FX risk management policy aligned with Bangladesh Bank guidelines. Regular reconciliations are performed for all NOSTRO accounts, and any outstanding entries are promptly escalated to the relevant departments and reported to higher management for immediate settlement. The Treasury Department holds the responsibility of measuring and minimizing the bank's foreign exchange risk. The Electra FX trading platform offers Straight Through Processing (STP) with auto hedging. The treasury personnel diligently monitor the price processing foreign

exchange and employ various hedging techniques to manage the bank's open position, minimizing risk and maximizing returns.

Non-Repayment Risk (Credit Risk)

Non-repayment risk refers to the risk that a borrower or counterparty may fail to fulfill their obligations as per the agreed terms. While BRAC Bank maintains a strong track record of repaying all its obligations to depositors and lenders, there is a remote possibility that the bank might be unable to repay its obligations related to issued bonds under extreme circumstances. If a default occurs, investors could experience financial losses.

Management's Perception

BRAC Bank PLC. functions within the framework of stringent regulations and rigorous oversight by Bangladesh Bank. The Board also frames policies for enabling effective risk control, monitoring compliance with the risk framework on a regular basis and also returning this framework as per the evolving business environment. Additionally, it is highly improbable for a reputable institution like BRAC Bank PLC. to jeopardize its standing by defaulting on its obligations. Moreover, in the event of any default or nonrepayment, the Trustee will provide a notice period to the Issuer to safeguard against an Event of Default and proceed with necessary actions to protect the investors' interests.

Prepayment, Call or Refunding Risk 1.04

Prepayment, call or refunding risks are the risks associated with the early repayment of the principal amount of a bond. Such risks exist in a bond that has prepayment or call option.

Management's Perception

The bond does not have a voluntary prepayment option hence, the risk does not prevail.

1.05 Security Risk

Security refers to the designated revenue sources or assets that an issuer pledges to bondholders as a means of ensuring repayment of the bond. Consequently, security risk revolves around the bondholder's ability to recover their investment through the utilization of the collateral securities in the event that the issuer is unable to repay the full value of the bond(s).

Management's Perception

BRAC Bank issues unsecured subordinated bonds, which means that specific revenue sources or assets are not being pledged as collateral for the bond issuance. Nevertheless, investors will have the right to repayment from the bank's cash flow. However, it's important to note that subordinated bondholders have a lower priority compared to depositors or senior lenders when it comes to claiming assets or earnings.

Liquidity Risk

The Bank faces liquidity risks that can impact its capacity to fulfill its financial pents. To ensure the Bank's ongoing ability to meet funding obligations and pand its operations, it relies on customer savings/

access to wholesale lending markets. However, the Bank's ability to access favorable funding sources is contingent upon several factors, including some beyond its control, such as overall market conditions and the level of confidence in the banking system.

Management's Perception

BRAC Bank's management possesses a keen understanding of the challenges associated with liquidity limitations and demonstrates competence in managing such risks through the implementation of contemporary Asset Liability Management (ALM) techniques. The ALCO consistently oversees the bank's overall liquidity position and takes proactive measures to adjust policies as necessary. The bank prioritizes maintaining an optimal balance of liquid assets, adhering to regulatory liquidity ratios, implementing robust cash flow forecasting techniques, and establishing contingency funding plans to address unexpected liquidity challenges. As a result, the likelihood of bondholders experiencing significant losses due to liquidity risk is highly improbable.

Management Risk

Management risk encompasses the possibility that company managers may prioritize their personal interests over the welfare of the company and its shareholders. This term signifies the risk associated with situations where choices made by management result in the company or other stakeholders being worse off compared to alternative decisions. In such instances, bondholders may face financial losses.

Management's Perception

BRAC Bank is led by a team of skilled professionals who possess extensive experience and a reputable standing within the financial industry of the country. As a result, the likelihood of the management behaving in an unprofessional manner is extremely low. Additionally, the bank's management is under constant supervision from a board of directors, comprised of seasoned professionals and entrepreneurs, who diligently work to safeguard the interests of all stakeholders. Furthermore, operating within the tightly regulated banking industry provides an additional safeguard against this risk, as Bangladesh Bank monitors the management to ensure adherence to best practices in the industry.

1.08 Operational Risk

Operational risks refer to the likelihood of incurring losses from inadequate or ineffective internal procedures, personnel, systems, or external events. Acquiring loss from numerous variables such as human error, system flaws, fraud payment processing, clearing and settlement, accounting and financial reporting, information technology, compliance or external incidents like natural disasters or unstable political conditions is the outcome of Operational risk. It can also arise from legal risks, such as those arising from breaches of contracts or regulations. Consequences of operational risks can be significant, including financial losses, damage to the bank's reputation, regulatory sanctions and even bankruptcy

Management's Perception

BRAG BANK PLC has dedicated Operational Risk team which uses a separate policy and SPP, they use Key Risk Indicators, Risk Register and Incident Response Forum. identification, assessment, measurement, monitoring, mitigation, reporting & assurance of risks posed by its activities at the business line and bank-wide levels. At BRAC Bank PLC, we have a dedicated desk within the Risk Management unit.

1.09 Business Risk

Business risk pertains to the potential for a bank to generate lower profits than expected or incur losses instead of profits. The issuer's business risk can arise from various factors, such as interest spreads, non-interest income, operating expenses, volatility in the money and capital markets, competition, government regulations, and the overall economic climate. Similar to other companies, BRAC Bank is also exposed to these business risk factors.

Management's Perception

The Bank diligently assesses the risks associated with its clients using contemporary risk evaluation techniques, enabling it to maintain a favorable asset quality in the past and anticipate the same in the future. Additionally, the Bank acknowledges that there may be systematic (market) risks originating from the external environment, which is a common occurrence for banks as well.

1.10 Industry Risk

The issuer operates within a market characterized by intense competition, as the modern banking industry has introduced greater business diversification. Banks in developed economies have expanded their operations to include investments, underwriting of securities, and portfolio management. The entry of new competitors into the market has the potential to impact the competitive landscape and potentially reduce the bank's profitability.

Management's Perception

BRAC Bank PLC., as a strongly expanding third-generation private commercial bank, has established an admirable presence in the banking sector of Bangladesh. The Bank consistently exercises caution in providing its products and services with competitive terms and conditions, which effectively manages its exposure to industry risks. The management also emphasizes the ongoing diversification of the loan portfolio. Nonetheless, similar to other banks operating in Bangladesh, industry risk remains a significant factor of concern for BRAC Bank PLC..

1.11 Market & Technology Related Risk

Market risk is the possibility that alterations in market circumstances will have a negative impact on the values of assets, obligations, or income. It may have an impact on both on-balance sheet and off-balance sheet positions due to interest rate movement, exchange rate fluctuation, spread variation and changes in equity valuation. Both trading books and banking books are exposed to market risk.

The modern banking industry is highly competitive and one of the fastest growing sectors in Bangladesh. To cope with the modern economy, the banking industry has become more technology dependent. With the increasing reliance on technology, the risks associated with its usage are also escalating. Cyber-attacks, system failures, unauthorzed access or transfers, and system hacking are the consequences of the found appendence on technology in banking operations.

Management's Perception

This risk is inherent in the financial industry. BRAC Bank PLC. practices regular market condition analysis, uses VaR (value at risk) to measure potential market risk, uses stress testing to assess the sensitivity of the bank's capital in different situations, and presents the prevailing market condition to the BRMC (Board Risk Management Committee), ALCO (Asset & Liability Management Committee), ERMC (Executive Risk Management Committee) and other related stakeholders. Based on the market condition, the board and management realign the bank's strategy to cope with the market condition. Risk tolerance limits, MAT (management action trigger) and stop loss limits are also in place to manage adverse situations.

Technological advancements have played a crucial role in achieving the bank's diverse strategies. However, the risk of business interruption and disaster is still prevalent and has evolved alongside technology. Recognizing this, BRAC Bank has prioritized its business continuity plan (BCP) as a significant challenge. The aim is to prevent, if possible, and effectively manage the consequences of a disaster within the limits of the business' capabilities.

In addition to BCP, the bank is actively addressing security threats. Following a centralized management model, each branch within the bank has its own ICT systems. Various measures have been implemented, including software updates, analysis of new software, strengthening ICT-related controls, providing system knowledge training to staff, and promoting the sharing of best practices among branch users. These actions collectively enhance the bank's overall security posture and resilience.

1.12 Risk Related to Potential or Existing Government Regulations

BRAC Bank PLC. abides by guidelines issued by Bangladesh Bank, the Bangladesh Securities and Exchange Commission and other regulatory authorities. Also operates under the Companies Act, 1994, the Bank Companies Act-1991, Income Tax Act 2023, Income Tax Rules, 1984, Value Added Tax and Supplementary Duty Act 2012, Value Added Tax (VAT) Rules, 1991, Customs Act, 1969, Bangladesh Securities and Exchange Rules, 1987 and other related regulations. The company also obtained a license from Bangladesh Bank as a bank under the Bank Companies Act, 1991. Any noncompliance with the regulatory regime may have an adverse impact on the reputation of the Bank. Moreover, sudden changes in the guidelines and regulations may affect BRAC Bank PLC.'s business position.

Management's Perception

The bank's business is anticipated to be unaffected unless a policy is altered that could considerably and adversely affect the banking industry as a whole. After maintaining the required Statutory Liquidity Ratio (SLR) from their deposit, BRAC Bank PLC, has funded their assets, with which the bank has to comply consistently. It is quite improbable that the government or central bank will implement any fiscal measures that would have a negative impact on the industry's expansion.

1.13 Risk Related to Potential Changes in Global or National Policies

Change in existing global or national policies can have either positive or negative or the Issuer. The performance of the Issuer will be hindered due to

unavoidable circumstances such as political turmoil either in Bangladesh or foreign countries or both.

Management's Perception

A significant change in the global or national policies in the future, particularly in the financial sector, could affect businesses and overall economic condition of Bangladesh. Such developments may also affect the bank's business, prospects, results of operations and financial condition. The management of BRAC B PLC. transcribes the prevailing and upcoming future changes in the global or national policy; and responds appropriately for timely management of the risks.

1.14 Emerging Risk

Emerging Risks refer to unpredictable and uncontrollable outcomes from certain events which may have the potential to adversely impact our business. As part of our continuous risk identification process, we realized that notable emerging risks like global supply chain disruption due to conflict between Russia and Ukraine, inflationary pressure, macroeconomic uncertainty and evolving cyber security threats are concerns for the bank in coming days.

Management's Perception

We have initiated number of steps to address these risk factors namely thematic stress tests and portfolio reviews to assess the impact of extreme but plausible events and manage the portfolio accordingly. Vulnerable sectors are regularly reviewed and exposures to these sectors are managed as part of Credit Risk reviews. Sovereign ratings, exposures, outlooks and country risk limits are regularly monitored, and mitigating actions are taken as required. In addition, we also remained vigilant in monitoring geopolitical relationships. Increased scrutiny is applied when on-boarding clients in sensitive industries and in ensuring compliance with sanctions.

3. DETAILS OF UTILIZATION OF PROCEEDS

3.1 Purpose of Issuance of BRAC Bank Social Subordinated Bond

The purpose of this Social Subordinated Bond is twofold. Firstly, the proceeds will enhance our Tier 2 capital base, strengthening the bank's financial resilience in accordance with the Basel III requirements set by the Bangladesh Bank. Secondly, it will raise funds to finance or refinance projects with significant social benefits, directly contributing to the UN Sustainable Development Goals (SDGs), Bangladesh Vision 2041, and the country's Nationally Determined Contributions (NDCs). This issuance aligns with the best practices of the International Capital Market Association's (ICMA) Social Bond Principles.

3.2 Plan Regarding Use of Proceeds from the BRAC Bank Social Subordinated Bond

An amount equivalent to the net proceeds from this bond will be allocated to finance or refinance, in whole or in part, new or existing Eligible Social Projects ("Eligible Projects") especially in the projects generating the following social benefits. The bank intends to tentatively allocate the proceeds of the bond in the following Social Categories:

- Employment generation & CMSME financing 79%
- Socioeconomic advancement and Empowerment 7%
- Food security 3%
- Affordable housing 1%
- Access to essential services/public health infrastructure projects 10%

Of the total proceeds, a minimum of 70% will be allocated to future projects, while the remaining (maximum 30%) will be used to refinance past disbursements within the look-back period.

Until the full allocation of an amount equivalent to the net proceeds from any Social Bond to Eligible Investments, the unallocated proceeds may be temporarily held in cash, cash equivalents, or other liquid instruments (such as Treasury Bill/Bond), at BRAC Bank's discretion.

3.3 Impact and Allocation of Proceeds Reporting

BRAC Bank will prepare and publish an annual Allocation and Impact Report for BRAC Bank Social Subordinated Bond until completion of full allocation. In case of any material development the bank will publish the updated report. The report will be made available on the Investor Relations section of the BRAC Bank website. The postissuance review of the management of proceed will be verified by an external toprated auditor (e.g. KPMG, ACNABIN Chartered Accountants, Hoda Vasi Chowdhury & Co, A. Qasem & Co etc.) or other qualified third party.

Further details are available in BRAC Bank's Social Bond Framework.

Legal Proceedings

The Trustee may at any time, at its discretion and without further notice, institute such proceedings against the Issuer as it may think fit to recover any amounts due in respect of the Bonds which are unpaid or to enforce any of its rights under this Trust Deed or the Conditions but it shall not be bound to take any such proceedings unless (a) it shall have been so directed by an Extraordinary Resolution or a Written Resolution and (b) it shall have been indemnified and/or secured to its satisfaction against all liabilities, proceedings, claims and demands to which it may thereby become liable and all costs, charges and expenses which may be incurred by it in connection therewith and provided that the Trustee shall not be held liable for the consequence of taking any such action and may take such action without having regard to the effect of such action on individual Bondholders. Only the Trustee may enforce the provisions of the Bonds or this Trust Deed and no Bondholder shall be entitled to proceed directly against the Issuer unless the Trustee, having become bound so to proceed, fails to do so within a reasonable time and such failure is continuing.

Notwithstanding whatsoever contained to the contrary herein, in the event of default, the procedure to be undertaken by the Trustee as envisaged shall be initiated only after compliance with all or any prevailing laws, notification, guidelines, directives etc. both statutory and authoritative, as applicable to the Issuer.

Evidence of Default

If the Trustee (or any Bondholder where entitled under this Trust Deed so to do) makes any claim, institutes any legal proceeding or lodges any proof in a winding up or insolvently of the Issuer under this Trust Deed or under the Bonds, proof therein that: as legal any specified Bond the Issuer has made default in paying any principal due

7. RIGHTS, DUTIES & OBLIGATIONS OF THE TRUSTEE

Trustee's Rights:

- Applicable Law: Notwithstanding anything contained in this Trust Deed the Trustee shall have all such rights and powers granted to it under the applicable law including but is not limited to the Rules.
- Advice: The Trustee may in relation to this Trust Deed act on the opinion or advice of or a certificate or any information obtained from any lawyer, banker, valuer, surveyor, broker, auctioneer, accountant or other expert (whether obtained by the Trustee, the Issuer, or any Subsidiary) and which advice or opinion may be provided on such terms (including as to limitations on liability) as the Trustee may consider in its sole discretion to be consistent with prevailing market practice with regard to advice or opinions of that nature and shall not be responsible for any Liability occasioned by so acting; any such opinion, advice, certificate or information may be sent or obtained by letter, telegram, telex, cablegram or facsimile transmission;
- Resolution or direction of Bondholders: the Trustee shall not be responsible for acting upon any resolution purporting to be a Written Resolution or to have been passed at any meeting of the Bondholders in respect whereof minutes have been made and signed or a direction of a specified percentage of Bondholders, even though it may subsequently be found that there was some defect in the constitution of the meeting or the passing of the resolution or the making of the directions or that for any reason the resolution purporting to be a Written Resolution or to have been passed at any Meeting or the making of the directions was not valid or binding upon the Bondholders;
- Trustee not responsible for investigations: save as otherwise provided by applicable law, the Trustee shall not be responsible for, or for investigating any matter which is the subject of, any recital, statement, representation, warranty or covenant of any person contained in this Trust Deed, the Bonds, or any other agreement or document relating to the transactions herein or therein contemplated or for the execution, legality, effectiveness, adequacy, genuineness, validity, enforceability or admissibility in evidence thereof;
- Entry on the Register: the Trustee shall not be liable to the Issuer or any Bondholder by reason of having accepted as valid or not having rejected any entry on the Register later found to be forged or not authentic and can assume for all purposes in relation hereto that any entry on the Register is correct;
- Events of Default: save as otherwise provided by applicable law, until it shall have actual knowledge or express notice to the contrary, the Trustee shall be entitled to assume that no such Event of Default has happened and that the Issuer is observing and performing all the obligations on its part contained in the Bonds and under this Trust Deed and no event has happened as a consequence of which any of the Bonds may become repayable; and

payment made by it hereunder or if the Trustee is or will be otherwise charged to, or is or may become liable to, tax as a consequence of performing its duties hereunder whether as principal, agent or otherwise, and whether by reason of any assessment, prospective assessment or other imposition of liability to taxation of whatsoever nature and whenever made upon the Trustee, and whether in connection with or arising from any sums received or distributed by it or to which it may be entitled under this Trust Deed (other than in connection with its remuneration as provided for herein) or any investments or deposits from time to time representing the same, including any income or gains arising therefrom or any action of the Trustee in connection with the trusts of this Trust Deed (other than the remuneration herein specified) or otherwise, then the Trustee shall be entitled to make such deduction or withholding or, as the case may be, to retain out of sums received by it an amount sufficient to discharge any liability to tax which relates to sums so received or distributed or to discharge any such other liability of the Trustee to tax from the funds held by the Trustee upon the trusts of this Trust Deed.

- Liability: The Trustee shall not be liable to any person for any matter or thing done or omitted in any way in connection with or in relation to this Trust Deed or the Bonds save in relation to its own gross negligence, willful default or fraud. This Clause 6.1.8 shall survive the termination or expiry of this Trust Deed or the removal or termination of the Trustee.
- Force Majeure: The Trustee shall not be liable for any failure or delay in the performance of its obligations under this Trust Deed or any other Bond Document because of circumstances beyond such Trustee's control, including, without limitation, acts of God, flood, war (whether declared or undeclared), terrorism, fire, riot, embargo, labor disputes, any laws, ordinances, regulations or the like which restrict or prohibit the performance of the obligations contemplated by this Trust Deed or any other Bond Document, inability to obtain or the failure of equipment, or interruption of communications or computer facilities, and other causes beyond such Trustee's control whether or not of the same class or kind as specifically named above. However, the Trustee shall use commercially reasonable efforts consistent with accepted practice in its industry to resume performance as soon as practicable under the circumstances.
- Immunities: The Trustee's immunities and protections from liability and its right to indemnification in connection with the performance of its duties under this Trust Deed shall extend to the Trustee's officers, directors and employees. Such immunities and protections and right to indemnification, together with the Trustee's right to compensation, shall survive the Trustee's resignation or removal, the defeasance or discharge of this Trust Deed and final payment of the Bonds. The Issuer acknowledges that in any proceedings taken in relation to this Trust Deed, it will not be entitled to claim for itself or any of its assets immunity from suit, execution, attachment or other legal process.

Arofessional charges: any trustee being a banker, lawyer, broker or other erson engaged in any profession or business shall be entitled to charge and paid all usual professional and other charges for business transacted and still

DESCRIPTION OF THE ISSUER

Since its inception in 2001, BRAC Bank PLC. has adopted a values-based banking approach to promote sustainable economic development. The bank places a strong emphasis on governance, transparency, ethics, and a compliance culture. Its primary objective is to provide formal banking solutions to small and medium enterprises that have been excluded from the banking system. Over time, BRAC Bank has emerged as a prominent financial institution that actively contributes to the country's economic progress through inclusive banking practices, collateral-free financing, and strategic collaboration with the government to implement broader economic policies.

Founded by Sir Fazle Hasan Abed, a visionary, BRAC Bank has a distinctive vision of offering banking solutions to small and medium entrepreneurs who are excluded from the formal banking system. Through its collateral-free loans, BRAC Bank extends formal banking services to grassroots SME entrepreneurs, resulting in significant socioeconomic upliftment and impact. The bank's approach to banking goes beyond profit-making, focusing on shared prosperity while prioritizing economic, social, and environmental considerations. Sustainable banking now constitutes a fundamental pillar of the bank's business strategy.

As a distinguished member of the Global Alliance for Banking on Values (GABV), BRAC Bank is deeply committed to humanizing finance and embraces the comprehensive '3P' philosophy of People, Planet, and Prosperity. With a collaborative mindset, the bank is dedicated to accelerating social, cultural, environmental, and economic transformations throughout Bangladesh. By doing so, BRAC Bank aims to create more inclusive communities and enhance the well-being of its people. The bank actively explores and embraces opportunities in green climate funds, bankable climate adaptation projects, and green bonds, aligning its impact with the Sustainable Development Goals (SDGs) and the government's development priorities.

10.06 Description of Assets & Liabilities

ASSETS

As of December 31, 2024, BRAC Bank PLC's asset base continued to expand, driven primarily by a significant increase in investments in government securities and a growing loan portfolio. The Bank strategically deployed surplus liquidity into high-quality treasury instruments to optimize returns while meeting regulatory requirements. Loans and advances also saw healthy growth, particularly in demand and term lending, reflecting increased financing to SMEs and corporates. At the same time, cash balances both in hand and with Bangladesh Bank were strengthened to support liquidity needs and regulatory compliance. Continued investments in IT infrastructure and fixed assets underscore the Bank's commitment to operational resilience and digital transformation.

As of December 31, 2024, BRAC Bank PLC's total standalone cash balance increased to BDT 45,551.3 million from BDT 39,349.0 million in 2023, driven by higher cash in hand and balances with Bangladesh Bank. Cash in hand rose by BDT 3,500.3 million, while balances with BB and its agent banks increased by BDT 2,702.0 million. The consolidated cash position followed a similar trend, reflecting the Bank's continued focus on maintaining strong liquidity to meet regulatory and operational requirements.

As of December 31, 2024, BRAC Bank PLC's balance with Bangladesh Bank and its agent banks increased to BDT 30,852.9 million from BDT 28,151.0 million in 2023. The rise was mainly driven by an increase in local currency balances, which went up by BDT 2,877.8 million. Foreign currency balances declined slightly, while the balance held with Sonali Bank as an agent of Bangladesh Bank saw a modest increase. This reflects the Bank's ongoing efforts to maintain adequate reserves for CRR and SLR compliance.

LIABILITIES

The Bank experienced strong deposit growth, with term deposits contributing the most to the expansion in the funding base. This stable source of funding supported both asset growth and liquidity management. While borrowings from Bangladesh Bank declined due to repayments of earlier refinance lines, the Bank leveraged foreigncurrency borrowings and short-term repo facilities to maintain funding flexibility. Other liabilities, including provisions and accrued expenses, increased in line with the expansion of core banking activities. Overall, the liability profile remained welldiversified and aligned with the Bank's prudent risk and liquidity management strategies.

In 2024, BRAC Bank's interbank and agent borrowings from outside Bangladesh surged by approximately 21.5%, as the Bank increasingly tapped into foreign currency lines, including dollar and FCY repo facilities, to support its foreign trade operations and hedge its currency positions. Meanwhile, borrowings from Bangladesh Bank and government agencies under the Export Development Fund (EDF) declined by around 36%, primarily due to the Bank's strategic decision to pre-repay a portion of its EDF obligations. In parallel, the Bank introduced the Bangladesh Bank Assured REPO facility, amounting to BDT 18,754 million, as a new source of short-term funding.

As of December 31, 2024, BRAC Bank PLC's standalone deposit base rose to BDT 688,620.8 million from BDT 513,909.0 million in 2023, primarily driven by a sharp increase in term deposits, which grew by BDT 125,960.8 million. Current and savings deposits also recorded strong growth, reflecting continued expansion in retail and SME banking. Bills payable increased in line with trade-related activity, while other deposits declined as customers shifted toward higher-yield term products. The overall deposit mix indicates a stable and long-term funding profile.

INDEPENDENT AUDITOR'S REPORT To the Shareholders of BRAC Bank PLC.

Report on the Audit of the Consolidated and Separate Financial Statements

Opinion

We have audited the consolidated financial statements of BRAC Bank PLC. and its subsidiaries (the "Group") as well as the separate financial statements of BRAC Bank PLC. (the "Bank"), which comprise the consolidated and separate balance sheets as at 31 December 2024, and consolidated and separate profit and loss accounts, consolidated and separate statements of changes in equity, and consolidated and separate cash flow statements for the year then ended, and notes to the consolidated and separate financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying consolidated financial statements of the Group and separate financial statements of the Bank give a true and fair view, in all material respects, of the consolidated financial position of the Group and the separate financial position of the Bank as at 31 December 2024, and of its consolidated and separate financial performance and its consolidated and separate cash flows for the year then ended in accordance with International Financial Reporting Standards (IFRSs), as explained in note-2.

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the audit of the Consolidated and Separate Financial Statements section of our report. We are independent of the Group and the Bank in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code), rules & regulations issued by Bangladesh Securities and Exchange Commission (BSEC), and Bangladesh Bank, and we have fulfilled our other ethical responsibilities in accordance with the IESBA Code and the Institute of Chartered Accountants of Bangladesh (ICAB) Bye-Laws. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated and separate financial statements for the financial year 2024. These matters were addressed in the context of our audit of the consolidated and separate financial statements as a whole, and informing auditors' opinion thereon, and we do not provide a separate opinion on these matters. For each matter described below our description of how our audit addressed the matter is provided in that context.

We have fulfilled the responsibilities described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatements of the financial statements. These results of our audit procedures, including the procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying financial statements.

Description of key audit matters

Our response to key audit matters

1. Measurement of provision for loans and advances

The process for estimating the provision for loans, advances and leases portfolio associated with credit risk is significant and complex.

The Bank calculates provision for loans and advances by considering various factors such as rate of provision, loan category, expiry date, outstanding balance, interest suspense amount, value of eligible collateral as per BRPD circular no. 14 dated 23 September 2012 and its subsequent amendments.

To minimize COVID-19 impact, Bangladesh Bank issued several circulars for providing deferral facility to aggrieved customers and directed the banks to keep an extra provision (Special General Provision-COVID-19) for those borrowers who have availed the deferral facilities.

As per BRPD Circular No. 58 dated December 31, 2024, the Special General Provision for COVID-19 has been repelled and Banks may transfer the special general provision to general or specific provision. Accordingly, BRAC Bank has transferred the special general provision (784.21 million) to specific provision.

Since the identification of NPLs and provisioning for loans and advances require a significant level of estimation and given its significance to the overall audit, we have identified the measurement of provisioning for loans and advances as a key audit matter.

We tested the design and operating effectiveness of key controls focusing on the following:

- Credit appraisal, loan disbursement procedures, monitoring and provisioning process;
- Identification of loss events, including early warning and default warning indicators;
- Review of quarterly Classification of Loans (CL).

Our substantive procedures in relation to the provision for loans and advances portfolio comprised the following:

- We checked the no. of instalments outstanding and compliance with BRPD circulars;
- Reviewed the adequacy of the general and specific provisions in line with related Bangladesh Bank guidelines;
- Tested the inputs in computation of provision in terms of testing the accuracy of underlying information;
- Assessed the methodologies on which the provision amounts based (value of eligible securities, interest suspense), recalculated the provisions for loans and advances; and

We assessed the appropriateness and presentation of disclosure against relevant accounting standards and Bangladesh Bank guidelines.

See note no. 7 and 17.1 to the financial statements

2. Recognition of interest income on loans and advances

Recognition of interest income has significant and wide influence on financial statements. Recognition and measurement of interest income have involved complex IT environments.

We identify recognition of interest income from loans and advances as a key audit matter because this is one of the key performance indicators of the Bank and therefore there is an inherent risk of fraud and error and misstatement in recognition of interest by management to meet specific targets or expectations.

We tested the design and operating effectiveness of key controls over recognition and measurement of interest on loans and advances focusing on the following.

- We performed test of operating effectiveness on automated control in place to measure and recognize interest income.
- We have also performed substantive procedure to check whether interest income is recognized completely and accurately.
- Reviewing transfer of interests to the income account in line with the Bangladesh Bank's guidelines
- appropriateness We assessed the presentation of disclosure against relevant accounting standards and Bangladesh Bank guidelines.

We performed the substantive analytical procedure to assess reasonableness of interest recognized during the year.

See note no. 25 to the financial statements

3. Valuation of treasury bill and treasury bond

The classification and measurement of T-Bill and T-Bond require judgment and complex estimates.

In the absence of a quoted price in an active market, the fair value of T-Bills and T-Bonds is determined using complex valuation techniques which may take into consideration direct or indirect unobservable market data and complex pricing models which require an elevated level of

Impairment assessment of financial instruments measured at amortized cost also required mainly unobservable market data and assumptions.

We assessed the processes and controls put in place by the Bank to identify and confirm the existence of treasury bills and bonds.

We obtained an understanding, evaluated the design and tested the operating effectiveness of the key controls over the treasury bills and bonds valuation processes, including controls over market data inputs into valuation models, model governance and valuation adjustments.

We tested a sample of the valuation models and the inputs used in those models, using a variety of techniques, including comparing inputs to available market data.

Finally assessed the appropriateness and presentation accounting of disclosures against relevant standards and Bangladesh Bank guidelines.

4. Adequacy of income tax provision and measurement of deferred tax

The adequacy of the income tax provision and the measurement of deferred tax assets is considered a key audit matter due to the significant judgment involved in determining both the current and deferred tax, as well as the potential impact on the financial position and performance of the company. These areas involve complex estimates, the application of tax laws, and the assessment of future taxable income, which require careful consideration and professional judgment.

Both income tax provisions and deferred tax assets rely on significant estimates. There is a risk that these estimates may be incorrect or overly optimistic, particularly in the case of deferred tax assets, which can be recognized only if it is probable that the Bank will have future taxable profits against which the deferred tax assets can be utilized.

Due to the inherent complexity and estimation uncertainty in both areas, and the materiality of the amounts involved, we have determined them as a key audit matter.

We obtained an understanding, evaluated the design and tested the operational effectiveness of the Bank's key controls over the recognition and measurement of both current tax and deferred tax, including the assumptions used in estimating the Bank's taxable income.

We carefully reviewed any ongoing tax litigation between the Bank and the income tax authority, as well as the tax positions for the years where income tax assessments are still pending. We also assessed the adequacy of the tax provision recorded by the Bank. Special attention was given to any reversals or adjustments made to the income tax provision from prior years.

We also assessed the completeness and accuracy of the data used for the estimations of future taxable income to ensure that The Bank has sufficient taxable profit to recover the deferred tax assets in foreseeable future.

We recalculated the current tax provision and deferred tax assets to ensure that the Bank has determined them in accordance with the applicable laws and regulations.

We engaged our tax specialist team to assess the key assumptions, controls, and the recognition and measurement of both current and deferred tax.

Finally, we assessed the appropriateness and presentation of the disclosures in accordance with IAS 12, Income Taxes, including the deduction of deferred tax assets from regulatory capital.

5. IT systems and controls

Our audit procedures have a focus on IT systems and controls due to the pervasive nature and complexity of the IT environment, the large volume of transactions processed in numerous locations daily and the reliance on automated and IT dependent manual controls.

Our areas of audit focus included user access management, developer access to the production environment and changes to the IT environment. These are key to ensuring IT dependent and application-based controls are operating effectively.

We tested the design and operating effectiveness of the Bank's IT access controls over the information systems that are critical to financial reporting.

We tested IT general controls (logical access, changes management and aspects of IT operational controls). This included testing that requests for access to systems were appropriately reviewed and authorized.

We tested the Bank's periodic review of access rights and reviewed requests of changes to systems for appropriate approval and authorization.

We considered the control environment relating to various interfaces, configurations and other application layer controls identified as key to our audit.

We performed the tests of IT general controls to evaluate the application development and database, hosting platforms and segregation of incompatible duties relevant to application and database change management.

Other Matter

The consolidated and separate financial statements of BRAC Bank PLC. for the year ended 31 December 2023 were audited by another auditor who expressed an unmodified opinion on those statements on April 02, 2024.

Other Information

Management is responsible for the other information. The other information comprises all of the information in the Annual Report other than the consolidated and separate financial statements and our auditor's report thereon. The Annual Report is expected to be made available to us after the date of this auditor's report.

Our opinion on the consolidated and separate financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated and separate financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Consolidated and Separate Financial Statements and Internal Controls

Management is responsible for the preparation and fair presentation of the consolidated financial statements of the Group and also separate financial statements of the Bank in accordance with IFRSs as explained in note-2 and for such internal control as management determines is necessary to enable the preparation of consolidated and separate financial statements that are free from material misstatement, whether due to fraud or error. The Banking Companies Act, 1991 and the Bangladesh Bank Regulations require the Management to ensure effective internal audit, internal controls and risk management functions of the Bank. The Management is also required to make a self-assessment on the effectiveness of anti-fraud internal controls and report to Bangladesh Bank on instances of fraud and forgeries.

In preparing the consolidated and separate financial statements, management is responsible for assessing the Group's and the Bank's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group and the Bank or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's and the Bank's financial reporting process.

Auditor's Responsibilities for the Audit of the Consolidated and Separate Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated and separate financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated and separate financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated and separate financial
 statements, whether due to fraud or error, design and perform audit procedures responsive to those risks,
 and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of
 not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as
 fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of
 internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that
 are appropriate in the circumstances.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's and the Bank's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated and separate financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group and the Bank to cease to continue as a going concern.

Tared Refat Wah Khan Managing Director & CEO BRAC Bank PLC. Rana FC & CE Massell Rana Director & CE Attitional Managing Director & CE ARAC Bank PLC. Muhbubur Rahman FC! Company Secretary BRAC Bank PLC Syed M. Chirecter & C. Drake

- Evaluate the overall presentation, structure and content of the consolidated and separate financial statements, including the disclosures, and whether the consolidated and separate financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business
 activities within the Group to express an opinion on the consolidated financial statements. We are
 responsible for the direction, supervision and performance of the group audit. We remain solely
 responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on other Legal and Regulatory Requirements

In accordance with the Companies Act 1994, the Securities and Exchange Rules 2020, the Banking Companies Act 1991 (as amended up to date), the Financial Reporting Act 2015, and the rules and regulations issued by Bangladesh Bank, we also report that:

- we have obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit and made due verification thereof;
- (ii) to the extent noted during the course of our audit work performed on the basis stated under the Auditor's Responsibility section in forming the above opinion on the consolidated financial statements and considering the reports of the Management to Bangladesh Bank on anti-fraud internal controls and instances of fraud and forgeries as stated under the Management's Responsibility for the financial statements and internal control:
 - internal audit, internal control and risk management arrangements of the Group as disclosed in the financial statements appeared to be materially adequate;
 - (b) nothing has come to our attention regarding material instances of forgery or irregularity or administrative error and exception or anything detrimental committed by employees of the Group and its related entities (other than matters disclosed in these financial statements);

1 THE BANK AND ITS ACTIVITIES

1.1 BRAC Bank PLC.

BRAC Bank PLC. (the "Bank" or "BRAC Bank") is a scheduled commercial bank established under the Bank Company Act, 1991, and incorporated as a public company, limited by shares, on 20 May 1999 under the Companies Act, 1994, in Bangladesh, vide RISC registration no. C-37782(2082)/99. The primary objective of the bank is to conduct all kinds of banking businesses. On completion of all legal formalities, the bank commenced its operations on 4th July 2001. At present, the bank has 189 banking branches (2023: 187 branches), 74 sub-branches (2023: 40 sub-branches), 198 Area offices (2023: 198 Area offices), 446 SME unit offices (2023: 457 SME unit offices), 1,119 agent banking outlets (2023: 1094 agent outlets), 329 ATMs (2023: 329 ATMs) and 68 RCDMs (2023: 68 RCDMs) and spread across the country. The registered address of the bank is: Anik Tower, 220/8 Tejgaon Guishan Link Road, Tejgaon, Dhaka-1208. BRAC Bank was listed on the Dhaka Stock Exchange and Chittagong Stock Exchange as a publicly traded company on 28 January 2007 and on 24 January 2007 respectively. The Bank has four subsidiaries and one associate companies in related operations. A brief description of the subsidiaries and associates of the Bank has been provided in Note 1.6.

1.2 Principal activities and nature of operations

The principal activities of the Bank are banking and related activities including accepting customer deposits, lending to retail, small and medium enterprise (SME) and corporate customers, trade financing, lease financing, project financing, issuing letter of credit (LCs), inter bank borrowing and lending, dealing in government securities, equity shares etc. There have been no significant changes in the nature of operations of the Bank during the financial year under review.

As a fully operational commercial bank, BRAC Bank PLC, focuses on pursuing unexplored market niches in the SME business, which hitherto has remained largely untapped within the country. Significant percentage of BRAC Bank's clients had no prior experience with formal banking. With the view to reaching clients, the Bank has established a wide network of branches, zonal offices, SME unit offices and agent banking outlets offering services in the heart of rural and urban communities.

As a founder member of GABV and being the trailblazer of values-based banking in Bangladesh, Bank always strives to contribute towards achieving the Sustainable Development Goals (SDGs), where financing for SMEs to generate employment in an environmentally-friendly manner remains as our top priority. The Bank also serving as intermediary for Triple Bottom Line (TBL) by supporting individual or enterprises delivering impact in at least one of the following categories: social empowerment (people), environmental regeneration (planet), and/or economic resiliency (prosperity).

1.3 Off-shore banking unit (OBU)

The Bank commenced its off-shore banking operation on obtaining permission from Bangladesh Bank in 2010. The Off-shore Banking Unit (08U) is governed by the rules and guidelines of Bangladesh Bank. The consolidated and separate financial statements of the bank included the operations of OBU. In addition, a separate financial statements of OBU has been presented in **Annexure-J**. In addition, the principal activities of OBU are to provide all kinds of commercial banking services to its customers in Bangladesh in foreign currency.

1.4 Custodian Service

The Bank obtained permission to work as a security custodian from Bangladesh Securities and Exchange Commission vide its certificate no. SC-10/2009 dated 12 November 2009 under the Securities and Exchange Commission (Securities Custodial Service) Rules 2003. Financial performance of Security Custodial Services have been separately reported in Annexure-H along with Bank's audited financial statements in compliance with the requirement u/s 10(2) of Security Custodial Services Rules 2003. The due certificate from external auditors has been obtained on internal control and financial statements of security custodial operations of the Bank and annexed with the financial statements.

1.5 Agent banking

BRAC Bank obtained permission from Bangladesh Bank on 11 March 2018, vide reference no. BRPD(P-3)745/(50)2018-1806, to commence agent banking outlets and subsequently started commercial operations on 11 September 2018. Till 31 December 2024, the bank has already opened 1,119 agent banking outlets in 64 districts across the country. Services that are currently being dispensed include account opening (current, savings & term deposit), cash deposit and withdrawal, instant fund transfer within BRAC Bank and outside BRAC Bank accounts through BEFTN, SME loan disbursement & repayment collection, foreign remittance disbursement, corporate bill/distributor fee collection, retail loan and credit card lead generation, credit card bill collection, insurance premium collection, utility bill collection, cheque book & debit card request process & delivery, internet and SMS banking and balance inquiry etc.

1.6 Subsidiaries and associates of BRAC Bank PLC.

Subsidiaries are entities controlled by the Group. The Group controls an entity if it is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. The Group reassesses whether it has control if there are changes to one or more of the elements of control. This includes circumstances in which protective rights held (e.g. those resulting from a lending relationship) become substantive and lead to the Group having power over an investee. Financial statements of subsidiaries are included in the consolidated financial statements from the date on which control commences until the date on which control ceases.

An associate is an enterprise in which the investor has significant influence and which is neither a subsidiary nor a joint venture of the investor (IAS-28: Investments in Associates and joint venture). Significant influence is the power to participate in the financial and operating policy decisions of the investee, but there is no control over those policies, investment in associates is accounted for in the consolidated financial statements under the 'equity method'. Under this method, the investment is initially recorded at cost and the carrying amount is increased or decreased to recognise the investor's share of profits or losses of the investee after the date of acquisition. The investor's share of the investee's profits or losses is recognised in the investor's profit and loss account. Distributions received from an investee reduce the carrying amount of the investment.

If the holding in subsidiary disposed-off in such a way that the status of the holding now comes to 'Associate' then the fair value of the holding retained in the said entity at the date of such disposal has been considered as opening balance of investment in associate in consolidated financial statements and related gains and losses have been recognised directly in consolidated equity. Any share of profits and losses after such change/disposal have been recognised in consolidated profit and loss as per equity method.

Equity Partners Securities Limited was incorporated in Bangladesh on 16 May 2000 as a private limited company under the Companies Act, 1994. Subsequently, the management decided to rename Equity Partners Securities Limited as BRAC EPL Stock Brokerage Limited. In the year 2011, the bank acquired an additional 39% shares of EPL Stock Brokerage Limited. As a result, the bank's controlling interest has risen to 90% of EPL Stock Brokerage Limited.

BRAC EPL Stock Brokerage Limited was established to cater to the needs of the brokerage business in Bangladesh. It has corporate membership of both Dhaka Stock Exchange and Chittagong Stock Exchange.

1.6.3 bKash Limited (subsidiary)

BRAC Bank PLC. formed bKash Limited, a private company limited by shares incorporated on 1 March 2010 under the Companies Act, 1994. bKash Limited was established to introduce mobile financial services in Bangladesh. The bank has obtained a license from Bangladesh Bank for bKash Limited to render mobile financial services (MFS). BRAC Bank currently holds 51% equity shares in the company.

With the consent of all existing shareholders, in 2014 Bill & Melinda Gates Foundation (B&M), in 2018 Alipay Singapore E-Commerce Private Limited ("Alipay") and in 2021 SoftBank further invested in bKash Limited in the form of convertible preference shares. As on 31 December 2023, out of the total 956;110,570 convertible preference shares, B&M holds 132,040,849 shares, Alipay holds 324,946,520 shares and SoftBank holds 499,123,201 shares. Preference shareholders do not have any voting rights but has same rights as equity shareholders with respect to economic interest in the company. These preference shares are convertible at a 1:1 basis to ordinary shares subject to consent of regulators. Consolidated financial statements have been prepared using 35.74% instead of 51% considering the potential dilution, or otherwise according to economic interest in bKash.

During the year 2023, the Company has increased the authorised share capital to Tk. 35,000,000,000 (Taka three thousand five hundred crore) from Tk. 500,000,000 (Taka fifty crore) divided into 2,240,000,000 (Two hundred and twenty four crore) ordinary shares of Tk. 10 each and 1,260,000,000 (One hundred and twenty six crore) preference shares of Tk. 10 each. The Company has also changed the nominal value of each share to Tk. 10 from Tk. 100.

Pursuant to section 57 (2) of the Companies Act 1994, the company has issued bonus shares from "Share premium account" to its existing ordinary and preference shareholders in proportion to the existing shareholding structure. Incremental costs directly attributable to the issue of shares, net of any tax effects, are recognised as a deduction from equity.

1.6.4 BRAC SAAJAN Exchange Limited (subsidiary)

At the inception, BRAC Bank PLC, acquired 75%+1 shares of "SAJAN Worldwide Money Transfer Limited" (SWMTL) in the UK, Bangladesh Bank provided necessary approvals of GBP 500,000 to acquire SWMTL and setting up two new branches in Luton and Bradford, UK. As per permission of Bangladesh Bank, SWMTL has been renamed as "BRAC SAAJAN Exchange Ltd" (BSEL), BRAC SAAJAN Exchange Limited was established to offer remittance and exchange services in the UK.

Notable that the operation of BRAC SAAJAN Exchange Limited was suspended in 2021 on regulatory ground by the local regulator in UK. Management lodged an appeal against the suspension before the Court in UK. After long hearing, the honorable Court released a verdict in 2022 in favour of BRAC Saajan and nodded the company to resume its operations. Accordingly, the company has resumed its operations in December 2022.

Considering the minimum capital requirement as per Financial Conduct Authority (FCA), UK and to resume its full-fledged operations, the company (BRAC Saajan) converted the outstanding OD Loan facilities of BRAC Bank as additional share capital of GBP 1,000,000 (equivalent to BDT 112,140,000) with due approval from the regulators in 2022.

In 2024, to meet up the minimum capital requirement as per Financial Conduct Authority (FCA), UK, the company (BRAC Saajan) converted from the outstanding OD Loan facilities of BRAC Bank as additional paid up share capital of GBP 1,500,000 (equivalent to BDT 232 GS,00) with the approval from the regulators.

Currently, BRAC Bank PLC, holds 97.06% shares (2,750,000 no. (shares out of the total 2,833,333 shares) of BBAC SASTAN Exchange Ltd.

2.2.3 Sustainability and Climate-Related Disclosure under IFRS S1 and S2

1 Governance

BRAC Bank's Board of Directors has oversight responsibility for sustainability and climate-related matters, with delegated responsibilities to the Board Risk Committee. A dedicated Sustainable Finance Committee (SFC), led by the DMD and COO, manages integration of climate risk into enterprise-wide risk management, lending practices, and investment strategies.

The ESG team outlines the bank's annual ESG strategy, ensures compliance with local regulations, and monitors global reporting frameworks. The board also oversees the transparent disclosure of ESG-related information to stakeholders, ensuring accountability and progress toward sustainability goals.

2 Strategy

Our sustainability and climate-related risk and opportunities are integrated into the Bank's core strategy. As part of this strategy, the bank is actively providing green and sustainable financing for projects contributing to a low-carbon and inclusive economy. The bank's total loan portfolio for 2024 amounts to BDT 623,372 million, of which BDT 502,146 million is sustainable finance and BDT 89,563 million is attributed to green finance. This strategy supports portfolio diversification, enables access to emerging sectors and strengthens the bank's balance sheet.

Decarbonization is embedded in our annual investment and prioritization processes. Our focuses on reducing GHG emissions by shifting financing towards energy efficiency and carbon footprint reduction, investing in renewables, and promoting green technologies.

Looking ahead, the bank is continually refining its ESG strategy in line with both local and global standards and enhancing the impact of various ESG related material risks that potentially have an impact on the bank's cash flow, access to finance or cost of capital over the short, medium or long-term time horizons.

3 Risk Management

BRAC Bank incorporates climate-related risks within its Enterprise Risk Management (ERM) framework, including credit, market, liquidity, and operational risk assessments. Climate risk factors are embedded into:

- a) Loan origination and review processes.
- b) Physical and transition risks are assessed through scenario analysis and stress testing.
- c) Portfolio mapping to assess sectoral and geographic climate risk exposures.
- d) High-emitting sectors (e.g., oil & gas, utilities) undergo enhanced credit risk review processes.

In alignment with the IFRS S1 and S2 frameworks, risk parameters within the Environmental and Social Risk Management (ESRM) system are calibrated on a scale of 1 to 100. This allows for the classification of risks into low, medium, or high categories, ensuring that risks are appropriately quantified and prioritized.

4 Metrics and Targets

The bank uses the PCAF methodology for financed emissions and discloses annually under the TCFD-aligned framework, consistent with IFRS S2. The bank also has been calculating its GHG emissions from loan portfolio under scopes 1, 2, and 3 in line with sustainability and climate-related financial disclosure guidelines. While the bank has not yet set a net-zero target, rather we have a Board-approved plan, and it is committed to reducing its GHG emissions through a comprehensive GHG reduction plan.

This Disclosure note reflects our ongoing commitment to transparency and accountability in addressing sustainability-related financial information in accordance with IFRS S1 and S2. We will continue to evolve our disclosures as our understanding and practices mature.

2.3 Going concern

The accompanying financial statements have been prepared on a going concern assumption that the Bank will continue in operation over the foreseeable future. The Bank has neither any intention nor any legal or regulatory compulsion to liquidate or curtail materially the scale of any of its operations. Key financial parameters (including liquidity, profitability, asset quality, provision sufficiency and capital adequacy) of the bank continued to demonstrate a healthy trend for a couple of years. The rating outlook of the bank, as reported by all the rating agencies is 'Stable'.

Besides, the management is not aware of any other material uncertainties that may cast significant doubt upon the bank's ability to continue as a going concern.

2.4 Materiality and aggregation

Each material item considered by the management as significant has been displayed separately in the financial statements. No amount has been set off, unless the Bank has a legal right to set off the amounts and intends to settle on net basis. Income and expenses are presented on a net basis only when permitted by the relevant accounting standards.

Comparative information

Accounting policies have been consistently applied by the Bank and are consistent with those used in the previous year. Comparative information is rearranged wherever necessary to conform with the current presentation.

2.6 Functional and presentation currency

The financial statements are presented in Bangladeshi Taka (BDT), which is the bank's functional currency, The functional currency of the Bank's Offshore Banking Unit (OBU) and one of the Bank's subsidiaries, namely BRAC SAAJAN Exchange Limited, is in United States Dollar (USD) and Great Britain Pound (GBP), respectively, Financial statements of the above-mentioned unit and subsidiary have been translated into the presentation currency, i.e. Bangladeshi Taka (BDT), following the guidelines of IAS 21: The Effect of Changes in Foreign Exchange Rates. The functional and presentation currency of other subsidiaries and associates is in Bangladeshi Taka (BDT). Except as indicated, figures have been rounded-off to the nearest Taka.

2.7 Reporting period

These financial statements cover one calendar year - from 01 January to 31 December 2024.

2.8 Basis of measurement of elements of financial statements

The financial statements of the Bank have been prepared on historical cost basis except for the following:

- Government Treasury Bills and Bonds designated as "Held for Trading (HFT)" at present value using marked to market with gains, if any, credited to revaluation reserve.
- Government Treasury Bills and Bonds designated as "Held to Maturity (HTM)" at present value using amortization concept.

2.9 Use of estimates and judgments

The preparation of financial statements in conformity with international Financial Reporting Standards (IFRS) requires management to make judgments, estimates and assumptions that affect the reported amounts of assets, liabilities, revenue and expenses. Actual results may differ from these estimates. It also requires disclosures of contingent assets and liabilities at the date of the financial statements. Provisions and accrued expenses are recognized in the financial statement in line with the IAS 37 "Provisions, Contingent Liabilities and Contingent Assets".

The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the result of which form the basis of making the judgments about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates. However, the estimates and underlying assumptions are reviewed on an ongoing basis and the revision is recognized in the year in which the estimates are revised and in any future periods affected. Significant areas where management requiring the use of estimate and judgment:

- a) Provision for loans and advances, investments and leases for future impairment
- b) Useful life of fixed assets and Right of use of assets (RoU) as per IFRS 16
- c) Remeasurement gain/(loss) of defined benefit obligation and plan assets
- d) Deferred Tax assets/liabilities
- e) Provision for gratuity fund
- f) Right of use of assets (RoU) as per IFRS 16
- g) Lease liabilities
- h) Impairment testing of goodwill
- i) Provision for taxation
- j) Fair value determination of unquoted investments/shares

2.10 Foreign currency transactions

Mark-to-market valuation of foreign currency transaction

The treasury back-office values all outstanding positions (Spot and Forward including on and off balance sheet items) at the current market rate to determine the current market value of these positions. This exercise also provides the profitability of the outstanding contracts. The treasury back office gathers the market rates from an independent source i.e. other than traders (Reuters/Bloomberg, BAFEDA, calling other bank back offices) of the same organization which is required to avoid any conflict of interest. Revaluation is done daily and the profit and loss impact is adjusted accordingly.

Translation of foreign currency operations

The results of financial statements of any foreign operation (including subsidiaries, off-shore banking unit, etc.) whose functional currency is not Bangladeshi Taka are translated into Bangladeshi Taka as follows:

- a. assets and liabilities for each statement of balance sheet have been translated at the closing rate on the date of the balance sheet
- b. Income and expenses for the profit and loss account have been translated at average rate.

Foreign currency differences are recognised in OCI and accumulated in the foreign currency translation reserve, except to the extent that the translation difference is allocated to NCI.

2.11 Provisions, contingent liabilities and contingent assets

The Bank recognises provisions only when it has a present obligation as a result of a past event and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and when a reliable estimate of the amount of the obligation can be made. No provision is recognised for-

- a. Any possible obligation that arises from past events and the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the bank; or
- Any present obligation that arises from past events but is not recognised because
 - i) It is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation; or
 - ii) A reliable estimate of the amount of obligation cannot be made.

Such obligations are recorded as contingent liabilities. These are assessed continually and only that part of the obligation for which an outflow of resources embodying economic benefits is probable, is provided for, except in extremely rare circumstances where no reliable estimate can be

Contingent assets are not recognised in the financial statement since these may result in the recognition of income that may never be realised. However, due to regulations of Bangladesh Bank (Central Bank of Bangladesh) and Bank Company Act, 1991, as amended, all Items of such contingent assets/liabilities are shown as off balance sheet items under balance sheet of the bank as a separate section.

2.12 Statement of changes in equity

Statement of Changes in Equity has been prepared in accordance with IAS 1 "Presentation of Financial Statements" and following the guidelines of Bangladesh Bank BRPD circular no.14 dated 25 June 2003.

Cash Flow Statement is prepared principally in accordance with IAS 7 " Statement of Cash Flows" under the guidelines of BRPD circular no.14 dated 25 June 2003. The Cash Flow Statement shows the structure of and changes in cash and cash equivalents during the year. It Cash Flows during the period have been classified as operating activities, investing activities and financing activities.

2.14 Basis of preparation of liquidity statement

The liquidity statement of assets and liabilities as on the reporting date has been prepared on residual maturity term as per the following basis:

- a) Balances with other bank and financial institutions, money at call and short notice etc. are on the basis of their maturity term.
- b) Investments are on the basis of their residual maturity term.
- Loans and advances are on the basis of their repayment/ maturity schedule. 0)
- d) Fixed assets are on the basis of their useful life.
- e) Other assets are on the basis of their adjustment.
- Borrowing from other banks, financial institutions and agents as per their maturity/ repayment term.
- g) Deposits and other accounts are on the basis of their maturity term and behavioural past trend.
- h) Other long term liability on the basis of their maturity term.
- Provisions and other liabilities are on the basis of their settlement,

2.15 Changes in accounting policies, estimates and errors

IAS 8 Accounting Policies, Changes in Accounting Estimates and Errors, states that the effect of a change in accounting policy and correction of errors, if material, is to be applied retrospectively, and change in an accounting estimate is to be applied prospectively. The carrying amount of assets, liabilities, or equity may be changed following a change in accounting estimates in the period of the change. The bank followed the same accordingly.

SIGNIFICANT ACCOUNTING POLICIES

The accounting policies set out below have been applied consistently to all the periods presented in these financial statements except the recognition of defined benefit obligation and plan assets relating to the gratuity fund on the balance sheet of the Bank from 2018. The net effect in opening balance for such recognition has been charged in profit and loss considering the effect as immaterial as per IAS - 8.

3.1 Assets and the basis of their valuation

3.1.1 Cash and Cash Equivalents

For the purpose of presentation in the cash flow statements, cash and cash equivalents includes cash in hand and cash at bank (regardless of maturity), highly liquid interest bearing investment/securities with original maturities of less than three month. Cash flow statement is prepared in accordance with IAS 7 Statement of Cash Flows. However cash flows from operating activities have been presented according to the format mentioned in BRPD circular no. 14 dated 25 June 2003.

However unencumbered portion of balance with Bangladesh Bank is presented in liquidity statement with maturity more than five years but considering the requirement of BRPD 14 dated 25 June 2003, this amount is considered as cash and cash equivalents in the cash flow statement.

Held To Maturity (HTM)

Investments which have fixed or determinable payments and fixed maturity that the group has the positive intent and ability to held to maturity, other than those that meet the definition of 'Held at amortised cost others' are classified as held to maturity. These investment are subsequently measured at amortised cost, less any provision for impairment in value. Amortised cost is calculated by taking into account any discount or premium in acquisition. Any gain or loss on such investments is recognised in the statement of income when the investment is de-recognised or impaired.

Held For Trading (HFT)

Investments classified in this category are acquired principally for the purpose of selling or repurchasing - in short trading or if designated as such by the management. After initial recognition, investments are measured at market value, and any change in the fair value is recognised in the statement of income for the period in which it arises. Transaction costs, if any, are not added to the value of investments at initial recognition.

Revaluation of government securities

According to DOS Circular no. 05, dated 26 May 2008, DOS Circular no. 05, dated 28 January 2009 and DOS Circular no. 02, dated 19 January 2012, HFT securities are revalued once each week using marking-to-market concept, and the HTM securities are amortised once a year according to Bangladesh Bank guidelines. HTM securities are also revaluated if they are reclassified to HFT category with the Board's approval. Moreover, as per DOS circular letter no. 27 dated 04 December 2023, amortization on HTM securities can be taken into profit and loss account before maturity. Gains arising from revaluation of HFT securities on 'Marking to Market' basis are recognised in revaluation reserve account while losses from revaluation of the same securities are recognised in profit and loss account.

investment in quoted securities

These securities are bought and held primarily for the purpose of selling them in the future or holding for dividend income, which are reported at cost. Unrealised gains are not recognised in the profit and loss statement. But required provisions are kept for diminution in value of investment.

investment in mutual funds

The Department of off-site Supervision (DOS) of Bangladesh Bank vide its circular letter no. 03 dated 12 March 2015 directed that investment in mutual fund (closed end) will be revalued at lower of cost and (higher of marker value and 85% of NAV). Provision should be made for any loss arising from diminution in value of investment on portfolio basis; otherwise investments are recognized at cost.

Investment in unquoted securities

investment in unlisted securities is reported at cost under cost method. Adjustment is given for any shortage of book value over cost for determining the carrying amount of investment in unlisted securities. As per Bangladesh Bank DOS Circular no. 04, dated 24 November 2011, provision for diminution in value of investment was made by netting off unrealised gain (loss) of shares from market price/book value less cost price.

Besides, the Bank compiled with Bangladesh Bank BRPD Circular no. 14, dated 25 June 2003, as follows, "All investments in shares and securities (both dealing and investment) should be revalued at the year end. The quoted shares should be valued as per market price in the stock exchange(s) and unquoted shares as per book value of the last audited balance sheet. Provisions should be made for any loss arising from diminution in value of investment."

Summary of recognition and measurement basis has been shown as under:

These write-offs however will not undermine/affect the claim amount against the borrower. Detailed memorandum records for all such write-off accounts are meticulously maintained and followed up. Loan and advances are written off as per BRPD circular no 04, dated 18 February 2024.

3.1.4 Fixed assets including premises, furniture and fixtures

A. Property, plant and equipment (PPE)

Property, plant and equipment (PPE) include all type of tangible assets i.e. land, office ficor space, furniture & fixtures, office equipment, IT hardware and motor vehicles etc.

Recognition and measurement

All fixed assets including land are stated at cost less accumulated depreciation, as per IAS 16 Property, Plant and Equipment. Right-of-use assets are measured at cost, less any accumulated depreciation, and adjusted for any re-measurement of lease liabilities.

The cost of an item of property, plant and equipment is recognised as an asset if it is probable that future economic benefits associated with the item will flow to the entity; and the cost of the item can be measured reliably.

The cost of the items of property, plant and equipment comprises:

- i) any cost directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by the management.
- any cost directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by the management.
- (ii) the initial estimate of the cost of dismantling and removing the item and restoring the site on which it is located, the obligation for which an entity incurs either when the item is acquired or as consequence of having used the item during a particular period of purpose other than to produce during that period.

Subsequent costs

Subsequent costs of enhancement of existing assets are recognised as an addition to the asset, only when it is probable that future economic benefits associated with the item will flow to the bank and the cost of the item can be measured reliably. All other repairs and maintenance expenses are charged to the profit and loss account during the financial period in which they are incurred.

Depreciation of PPE

Land is not depreciated. Depreciation is charged on straight-line basis. In case of acquisition of fixed assets, depreciation is charged from the month of acquisition, whereas no depreciation on assets disposed-off is charged from the month of disposal. Asset category-wise depreciation rates are as

Gain or loss on disposal of PPE

Sale price of fixed assets are determined on the basis of fair value of the assets. Gain or loss on sale of assets are recognised in the profit and loss account as per provision of IAS 16 Property, Plant and Equipment.

Impairment of PPE

At each balance sheet date, the bank assesses whether there is any indication that the carrying amount of the asset exceeds its recoverable amount. If any such indication exists, the Bank should estimate the recoverable amount of the asset. An asset is carried at more than its recoverable amount if its carrying amount exceeds the amount to be recovered through use or sale of the asset. If this is the case, the asset is described as impaired and impairment loss is recognised as an expense in the profit and loss account unless the asset is carried at revalued amount in accordance with IAS 16 Property, Plant and Equipment, in which case any impairment loss of a revalued asset should be treated as revaluation decrease under the accounting standard. No impairment loss was recognised up to the reporting period in separate financial statement, as no such indication existed as on the balance sheet date.

B. Intangible assets

Software

Software acquired by the bank is stated at cost less accumulated amortisation and accumulated impairment losses. Subsequent expenditure on software assets is capitalised only when it increases future economic benefits embodied in the specific asset to which it relates. All expenditure is expensed as incurred. Amortisation is recognised in profit or loss on a straight-line basis over the estimated useful life of the software, from the date that it is available for use, since this most closely reflects the expected pattern of consumption of the future economic benefits embodied in the asset. The estimated useful life of software is five to ten years. Amortisation methods, useful lives and residual values are reviewed at each financial year-end and adjusted, if appropriate.

License

Value of the license is recognised at cost less accumulated impairment losses.

Goodwill

Goodwill that arises upon the acquisition of subsidiaries represents the excess of the fair value of the purchase consideration over the fair value of the BRAC Bank group's share of the assets acquired and the liabilities and contingent liabilities assumed on the date of the acquisition and is measured at cost less accumulated impairment losses in accordance with IFRS 3 Business Combinations and IAS 36 Impairment of Assets.

Impairment of Intangible assets

intangible assets with indefinite useful life, like goodwill etc., are tested for impairment at the end of each year. As per IAS 36 Impairment, any intangible assets with definite useful life are first reviewed for any indication of impairment. If any indication exists, then the impairment test is

C. IFRS 16 "Leases" and its relevant assumptions and disclosures

IFRS 16: "Leases" has come into force on 1 January 2019, as adopted by the institute of Chartered Accountants of Bangladesh (ICAB). BRAC Bank applied IFRS 16 using modified retrospective approach where the bank measured the lease liability at the present value of the remaining lease payments, discounted it using the bank's incremental borrowing rate at the date of initial application, and recognised a right-of-use asset at the date of the initial application on a lease by lease basis.

Right-of-use assets

The Bank recognises right-of-use assets at the date of initial application of IFRS 16. Right-of-use assets are measured at cost, less any accumulated depreciation, and adjusted for any re-measurement of lease liabilities. Right-of-use assets are depreciated on a straight-line basis over the lease term. The right-of-use assets are presented under property, plant and equipment.

Lease llabilities

At the commencement date of the lease, the bank recognises lease liabilities measured at the present value of lease payments to be made over the lease term using incremental borrowing rate at the date of initial application. Lease liability is measured by increasing the carrying amount to reflect interest on the lease liability, reducing the carrying amount to reflect the lease payments, and re-measuring the carrying amount to reflect any reassessment or lease modifications.

Interest on the lease liability in each period during the lease term shall be the amount that produces a constant periodic rate of interest on the remaining balance of the lease liability.

Short-term leases and leases of low value assets

The Bank has elected not to recognise right-of-use assets and lease liabilities for leases of low value assets and short-term leases, i.e. for which the lease term ends within 12 months of the date of initial application. The Bank petognises lease payments associated with these leases as an

data centers and disaster recovery centers are considered for lease The contracts for premises with all branches, head office, regional offices, calculation.

Accounting of lease modification

IFRS 16 defines a modification as a change in the scope of a lease, or the consideration for a lease, that was not part of the original terms and conditions of the lease. Any change that is triggered by a clause that is already part of the original lease contract (including changes due to a market rent review clause or the exercise of an extension option) is not regarded as a modification.

Gain or loss on termination of lease agreements

It of use of one or more underlying assets or to shorten the contractual lease term, the As per IFRS-16, if the lease is modified to terminate the rig bank (lessee) remeasures the lease liability at the ve date of the modification using a revised discount rate. Furthermore, it decreases the e partial or full termination of the lease. D. Capital work-in-progress (CWIP)

Costs incurred, but if the related asset is yet not ready or available for use as intended by management, are recognised as capital work-in-progress and disclosed as a part of fixed assets. Once the underlying asset is ready and available for use, it is transferred to fixed assets. However, no depreciation is charged on CWIP.

E. Investment properties

Investment property is held to earn rentals or for capital appreciation or both and the future economic benefits that are associated with the investment property but not held for sale in the ordinary course of business. Investment property is accounted for under cost model in the financial statements. Accordingly, after recognition as an asset, the property is carried at its cost, less accomulated depreciation and accumulated impairment loss.

3.1.5 Other assets and basis of their measurement.

Other assets include mainly all other financial assets, interest and other unrealised income receivable, advance for operating expenditure and stocks of stationery and stamps etc.

a. Interest receivables

Interest receivable is the amount of interest that has been earned but has not yet been received in cash. Interest on loans and advances is calculated and accrued on a daily product basis but charged to customer accounts in different frequency based on product nature. The accrued but uncharged interest portion is reported as interest receivables on reporting date. Interest receivables is recognized only when the unconditional right to receive the cash flows of the loans and advances is established.

b. Reporting investment in subsidiaries and associates in separate financial statements

In accordance with the IAS 27 "Separate Financial Statements", an entity may choose any of the following methods to account for investment in subsidiaries, associates and joint ventures in its separate financial statements:

- at cost
- in accordance with IFRS 9; or
- using the equity method as described in IAS 28;

BRAC Bank adopted IFRS 9 Fair value through other comprehensive income (FVOCI) method for accounting equity investment in subsidiaries and associates since June 2020. As all of the investment are in unquoted investment, management used net assets value of the each investment as per the financial statements of the antity every year as fair value because if buyer offer any price of our investments, they will refer to NAV as reference price.

Accordingly, below cumulative fair value gain/(loss) has been directly recognised in equity in the separate financial statements of the bank till to date 31 December 2024.

b. Gratuity Fund (Defined Benefit Plan)

Gratuity Fund benefits are given to the staff of the Bank in accordance with the approved Gratuity Fund rules. Employees are entitled to Gratuity benefit after completion of minimum 05 (five) years of service in the Bank. The Gratuity is calculated on the basis of last basic pay and is payable at the rate of one month's basic pay for every completed year of service, or in the case of service of 10 years or more at the rate of one and half month's basic pay for every completed year of service. Beyond 5 years, 6 months and more shall be considered as full year of service. Gratuity fund is a "Defined Benefit Plan" and contribution to Gratuity Fund is measured through the result of actuarial valuation of the fund.

The Bank's net obligation in respect of gratuity is calculated by estimating the amount of future benefit that employees have earned in the current and prior periods, discounting that amount and deducting the fair value of any plan assets. The calculation of defined benefit obligations is performed annually by a qualified actuary using the projected unit credit method.

Remeasurements of the net defined benefit liability, which comprise actuarial gains and losses, are recognised immediately in OCI. The Bank determines the net interest expense (income) on the net defined benefit liability (asset) for the period by applying the discount rate used to measure the defined benefit obligation at the beginning of the annual period to the then-net defined benefit liability (asset), taking into account any changes in the net defined benefit liability (asset) during the period as a result of contributions and benefit payments. Net interest expense, current service cost and other expenses related to defined benefit plans are recognised as salaries and allowances in profit or loss.

When the benefits of a plan are changed or when a plan is curtailed, the resulting change in benefit that relates to past service or the gain or loss on curtailment is recognised immediately in profit or loss.

c. Worker's Profit Participation Fund (WPPF)

Consistent with the industry practice and in accordance with section 11(1) of the Bank Company Act,1991 (as amended up to date) and subsequent clarification given by Bank & Financial Institutions Division (BFID), Ministry of Finance, no provision has been made by bank in the reporting period for WPPF

d 1 lfe Insurance

3.2.8 Taxatlor

income tax on profit for the year comprises current and deferred tax and is based on the applicable tax law in Bangladesh. It is recognised in the income statement as tax expense.

a. Current Tax

Current tax is the expected tax payable on taxable income for the year, based on tax rates and tax laws which are enacted at the reporting date, including any adjustment for tax payable in previous periods. Current tax for current and prior periods are recognised as a liability or asset to the extent that it is unpaid or refundable.

b. Deferred Tax

The Bank accounted for deferred tax as per IAS 12 Income Taxes. Deferred tax is accounted for any temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and their tax base.

Deferred tax assets, including those related to the tax effects of income tax losses and credits available to be carried forward, are recognised only to the extent that it is probable that future taxable profits will be available against which the deductible temporary differences or unused tax losses and credits can be utilised.

Deferred tax liabilities are recognised for all taxable temporary differences. They are also recognised for taxable temporary differences arising on investments and it is probable that temporary differences will reverse in future. Deferred tax assets associated with these interests are recognised only to the extent that it is probable that the temporary difference will reverse in the foreseeable future and there will be sufficient taxable profits against which to utilise the benefits of the temporary difference.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the period(s) when the asset and liability giving rise to them are realised or settled, based on tax rates (and tax laws) that have been enacted or substantively enacted by the reporting date. The measurement reflects the tax consequences that would follow from the manner in which the Bank, at the reporting date, recovers or settles the carrying amount of its assets and liabilities.

3.2.9 Earnings Per Share

Earnings Per Share (EPS) has been computed by dividing the basic earning by the weighted average number of ordinary shares outstanding at the end of the year as per IAS 33 Earnings Per Share.

a. Basic earnings

This represents earnings for the year attributable to ordinary shareholders. Net profit after tax less preference dividend has been considered as fully attributable to the ordinary shareholders.

Weighted average number of ordinary shares outstanding during the year

This represents the number of ordinary shares outstanding at the beginning of the year plus the number of ordinary shares issued during the year multiplied by a time weighted factor. The time weighting factor is the number of days the specific shares are outstanding as a proportion of the total number of days in the year.

The basis of computation of number of shares is in line with the provisions of IAS 33 Earnings Per Share. The logic behind this basis is, that the bonus shares are issued to the existing shareholders without any consideration, and therefore, the number of shares outstanding is increased without an increase in resources generating new earnings. In contrast, other shares were issued against consideration in cash or in kind, and accordingly there is an increase in resource generating new earnings. Therefore, the total number of shares issued in particular year are multiplied by a time weighting factor which is the number of days the specific shares were outstanding as a proportion of total number of days in the period.

b. Diluted earnings per share

The objective of diluted earnings per share is consistent with that of basic earnings per share; that is, to provide a measure of the interest of each ordinary share in the performance of an entity taking into account dilutive potential ordinary shares outstanding during the year.

As per IAS-33 "Earnings Per Share", the calculation of diluted earning per share does not assume conversion, exercise or other issue of potential ordinary shares that would have an anti-dilutive effect on earning per share. The bank has no dilutive instruments that is why we are not considering the diluted earning per share.

3.3 Dividend policy

Dividend on ordinary shares is recognised as a liability and deducted from retained earnings when they are approved by shareholders at the Annual General Meeting (AGM) of the Bank.

Dividend on ordinary shares for the year that is recommended by the Directors after the balance sheet date for approval of shareholders at the Annual General Meeting are disclosed in Note - 49.5 to the financial statements.

3.3.1 Dividend Distribution Policy of BRAC Bank

Bangladesh Securities and Exchange Commission (BSEC) has made it mandatory for the listed Company to have their dividend distribution policy and disclosed it in the Company's website and in the Annual Report. Accordingly, BRAC Bank has formulated the dividend distribution policy which has been approved by Board of Directors in its 303rd meeting held on 20 September 2021. The policy is also available in bank's website accordingly.

The BRAC Bank PLC, shall propose and declare dividend by ensuring compliance with the regulatory guidelines on dividend declaration and other directives from Bangladesh Securities and exchange commission (BSEC), DSE, CSE, Bangladesh Bank, NBR and other applicable regulatory requirements as well as aligned with company's business strategy.

- a) Adjusting events after the reporting period which provide evidence of conditions which existed at the end of the reporting period; and
- b) Non adjusting events after the reporting period, are those that are indicative of conditions that arose after the reporting period.

The details about the events after reporting period can be found at note - 49.5.

Risk management is a core discipline integrated into every aspect of an organization's operations, influencing its risk profile and ensuring business safety. Globally recognized standards, such as those established by the Bank for International Settlements (BIS) and the Basel Committee on Banking Supervision (BCBS) serve as benchmarks for financial institutions worldwide. Reflecting these standards, Bangladesh Bank issued updated risk management guidelines in October 2018, which form the foundation for all scheduled banks operating in Bangladesh. BRAC Bank aligns its practices with both international and national standards to maintain a robust risk management framework.

To meet regulatory requirements and enhance its risk management capabilities, BRAC Bank has implemented comprehensive risk management guidelines approved by its Board of Directors. The bank nurtures an integrated, organization-wide risk culture, beginning with a clear understanding of risks, risk tolerance and appetite. This culture is reinforced through policies, processes, risk awareness initiatives and staff training to ensure accountability for managing risks effectively.

BRAC Bank follows a robust enterprise-wide risk management framework anchored in the "three lines of defense" model, Each line of defense plays a distinct role within the governance framework. The risk management approach incorporates policies, procedures, limits and controls that enable continuous identification, assessment, measurement, monitoring, mitigation, reporting and assurance of risks at both business-line and enterprise

To strengthen its risk management systems, BRAC Bank continues to adopt data-driven, proactive tools designed to enhance risk-adjusted returns and optimize capital usage while supporting its strategic business objectives.

In 2024, banks faced a dynamic operating environment shaped by a convergence of technological advancements, evolving customer expectations, regulatory pressures, Foreign exchange crisis and economic uncertainties. The rapid digitization of financial services continued to reshape traditional banking models, compelling institutions to prioritize digital transformation initiatives to enhance customer experiences and streamline operations. Moreover, increase in fuel and commodity prices, strengthening of US Dollars, etc. Most of these events also had significant impact on the local economic environment affecting the Bank's operations. Amidst geopolitical tensions and economic fluctuations, banks navigated through market volatility, focusing on resillence and agility to adapt to changing economic landscapes. Overall, 2024 marked a pivotal year for bank, characterized by a relentless pursuit of innovation, regulatory compliance, and strategic adaptation to thrive in an increasingly complex operating environment.

B. Credit risk management

Effective credit risk management is a vital component of a comprehensive risk management strategy and critical to any bank's long-term sustainability. Considering key elements of credit risk, the bank has separate divisions for Corporate, SME, Retail and Credit Cards are entrusted with the responsibility of maintaining effective relationship with customers, marketing credit products, exploring new business opportunities, etc. For transparency in operations during the entire credit process, teams for I. Credit Approval, II. Asset Operations, III. Recovery Unit and Special Asset Management have been set up.

The entire process involves relationship teams of respective asset portfolios (Retail, SMF and Corporate) booking clients and the underwriting team conducting thorough assessment before placing the facility for approval with the authority. Risk assessment includes borrower risk analysis, industry risk analysis, financial risk analysis, security risk analysis, account performance risk analysis, AML risk analysis and environmental & social risk analysis of the customer. Post-approval, the Credit Administration Department ensures compliance with all legal formalities, completion of documentation, including security of proposed facility, and eventual disbursement. This arrangement has not only ensured segregation of duties and accountability, but also helped in minimizing risk of compromise with goality of the credit portfolio.

To ensure sound practices in credit risk management, including taking calculated risk and maintaining asset portfolio quality, BRAC Bank follows well-established Credit Policy Guidelines, as approved by the Board of Directors and prepared in line with Internationally-accepted risk management principles and best practices. The guidelines are also aligned with the 'Guidelines on Credit Risk Management (CRM) for Banks' (March, 2016) by Bangladesh Bank, the Bank Company Act, 1991 (Amended in 2013 and 2023), Risk Management Guidelines for Banks (October, 2018) and credit-related circulars and instructions of Bangladesh Bank circulated from time to time. In 2023, BRAC Bank has updated its credit policy in line with the instructions issued by Bangladesh Bank for the loan accounts at the time of sanctioning or renewal, where applicable.

In 2024, BRAC Bank has complied with the instructions given by Bangadesh Bank time to time, where applicable.

C. Foreign exchange risk management

Foreign exchange risk arises from fluctuations in currency prices, influenced by various macro and micro economic factors. Contemporary financial institutions engage in activities starting from basic currency buy, sell, imports, exports and remittances to complex structured products. Within the bank, the Treasury division is vested with the responsibility to measure and minimize risk associated with bank's foreign currency position.

All treasury functions are clearly demarcated between treasury front office, mid office and back office which has separate and independent reporting lines to ensure segregation of duties and accountability and also helps minimize the risk of compromise. The front office is involved only in dealing activities, mid office is involved in monitoring of different limits, e.g. counterparty limits, dealers' trading limits, stop/loss limits, etc. and calculation of Value at Risk (VaR) and reports directly to the Chief Risk/Operating Officer of the bank. Treasury back office is responsible for all related processing functions with separate reporting line to the Head of Operations.

Dealing room is well-equipped with Reuter's dealing system, a number of FX trading platforms and voice loggers, etc. State of the art treasury system is in place to ensure straight through processing (STP) of all deals. Dealing room also offers an FX trading platform 'BBL Electra' to counterparty banks where all deals are auto-hedged and processed through STP without creating any position for the dealing room. The robust treasury system of the Bank also facilitates the mid office in effective monitoring and risk reporting and the back office with different reports, along with easy processing of transactions. Counterparty limit is set by the Credit Committee and monitored by the mid office. Clearly expressed dealers' trading limits, stop-loss limits and currency-wise open position limits are in place that are monitored by the mid office. All Treasury including FX transactions are carried out by well-trained and dynamic dealers who ensure local and global regulatory compliance.

D. Asset liability management

Changes in market liquidity and or interest rate exposes the bank's business to the risk of loss, which may, in extreme cases, threaten the survival of the institution. Thus, it is essential that the level of balance sheet risks are effectively managed, appropriate policies and procedures are established to control and limit these risks and proper resources are made available for evaluating and controlling these risks. The Asset Liability Management Committee (ALCO) of the bank monitors liquidity and market risks of the bank and plans balance sheet & pricing strategy accordingly. Bank has dedicated ALM desk under Treasury and FI division, to support ALCO in decision making.

ALCO also reviews the country's overall economic position, the bank's liquidity position, ALM ratios, interest rate risks, capital adequacy, deposit/advances growth, cost of deposit and yield on advances, FX gap, market interest rates, loan loss provision adequacy and deposit and lending pricing strategy.

E. Operational Risk

Operational risk is the risk of direct or indirect loss resulting a wide variety of causes associated inadequate or failed internal processes, people or technology or the impact of external events such as employee, customer or third party frauds, natural disasters, technology failures, process breakdowns, unethical business practices etc. Operational risk is an integral part of any banking activity which is inherent in all banking products, activities, processes and systems and as with other core risks it is managed through an overall framework with checks and balances that include implementation of three line of defense, and a comprehensive framework for identifying, assessing, managing, monitoring, and reporting operational risks.

BRAC Bank has prepared an Operational Risk Management (ORM) policy incorporating regulatory directives and international best practices with the aim to provide a framework for robust management of operational risks. The operational risk policy outlines the core governing principles for operational risk upon which a holistic framework is designed for identifying, assessing, managing, monitoring, and reporting operational risks to ensure that the bank operates in a safe and sound manner, protecting the bank's assets, reputation, and oustomers. The framework is developed encompassing integration, design, implementation, evaluation and improvement of risk management across the organization, where each business area is responsible to identify its key operational risks as well as the controls established through a defined operational risk appetite to mitigate those risks and to ensure compliance with laws, regulators, regulatory administrative actions and the Bank's policies.

F. Equity Risk

Equity risk arises from movement in market value of equities held. The risks are monitored by Bank's Treasury and Fls Division under a well designed policy framework.

G. Prevention of Money Laundering (ML), Terrorist Financing (TF) and Proliferation Financing (PF)

Bank is committed to maintaining a strong governance and compliance culture to mitigate money laundering (ML) and terrorist financing (TF) risks.

The bank's AML/CFT framework aligns with regulatory directives and international best practices, ensuring a secure and resilient financial environment. Few key AML/CFT initiatives & Achievements are as follows.

- a) Established a dedicated Anti-Money Laundering Division with experienced personnel.
- b) Implemented a robust onboarding policy and conducted risk-based periodic reviews.
- c) Automated monitoring, name screening, trade compliance, and regulatory reporting.
- d) Developed policies to prevent Trade-Based Money Laundering (TBML) and comply with international sanctions.
- e) Strengthened frontline training, staff awareness, and customer education programs.
- f) Enhanced Identification, verification, and analytical capabilities through tech-based solutions.

The Board of Directors and the Management Committee are differntly investing in enhancing control measures against money laundering and terrorist financing risks. Their commitment is evident through annual communications to employees, promoting awareness and compilance with these measures. They also supervise regular policy reviews and updates to address emerging threats, ensuring the organization's resilience and regulatory adherence. This strategy fosters sustainable growth and has a positive impact on the industry and the national economy. Directively, these efforts highlight our dedication to unhouse the highest standards of integrity and achieving sustainable commercial success.

H. Internal Control and Compliance (ICC)

BRAC Bank has instituted internal control mechanism to provide reasonable assurance regarding the attainment of objectives in the effectiveness and efficiency of operations, the reliability of financial reporting and compliance with applicable laws, regulations and internal policies. Through internal control systems, the bank identifies weaknesses associated with the process and adopts appropriate measures to overcome these deficiencies.

The main objectives of internal control are as follows:

- a) Operations objectives: Attainment of the bank's mission and vision.
- b) Reporting objectives: Timely, accurate and comprehensive reporting financial and non-financial, internal and external.
- c) Compliance objectives: Conducting activities and taking specific actions in accordance with applicable laws and regulations.

The bank has established an effective internal control system whose primary alm is to ensure that the bank operates in a sound and effective manner, adheres to regulatory requirements, and mitigates risks. It has been designed to develop a high level of compliance culture among our people, establish efficient and effective operating standards, ensure reliability of internal and external information, including financial and other information, secure the bank's operations and assets, and comply with laws, regulatory requirements and internal policies.

The key functions that have been established in reviewing adequacy and integrity of the system of internal controls are as follows:

- a) Various committees are established by the Board to assist it in ensuring the effectiveness of the bank's daily operations are in accordance with the corporate objectives and strategies as well as approved policies and business directions.
- b) The Audit Department of the Bank conduct regular audits to assess compliance with policies and procedures and the effectiveness of the internal control systems on an ongoing basis using risk based audit methodology and highlights significant findings in respect of any noncompliance.
- c) Audits are carried out on various departments/divisions, branches, business functions, support functions, subsidiaries in accordance with the annual audit plan, approved by the Audit Committee of the Board. Findings of the audit are submitted to the Audit Committee of the Board for review at their periodic meetings.
- d) The Audit Committee of the Board of the bank reviews internal control issues identified by the Audit Department, Bangladesh Bank, External Auditors and the management, and evaluates the adequacy and effectiveness of the risk management and internal control systems. The minutes of the Audit Committee meetings of the Board are tabled at the meetings of the Board of Directors of the bank on a periodic basis.
- e) Self-assessment of anti-fraud internal controls is carried out on a semi-annual basis and is sent to Bangladesh Bank, as per requirements of DOS Circular Letter No. 10, dated 09 May 2017, issued by Bangladesh Bank.
- f) Responsible officers continually review and update all procedures and controls related to significant accounts and disclosures in the bank's financial statements. This ongoing process ensures that the internal control system remains robust and effective.

I. Information and communication technology (ICT) security

BRAC Bank is dedicated to provide high-quality service and banking security. The bank has an ICT security strategy for cyber security and ICT risk mitigation, in accordance with the Bangladesh Bank ICT guidelines stated in BRPD circular no. 14 dated 23 October 2005 regarding "Guideline on Information and Communication Technology for Scheduled Banks", BRPD circular no. 21 dated 20 May 2010 and BRPD circular no. 09 dated 17 September 2015 and well-established frameworks and international standards and controls, such as COBIT, ITIL, ISO 27001, ISO 18788, NIST, GDPR, PCI, and SANS.

Bank has implemented multiple robust security solutions to prevent any unwanted/unauthorized/ unauthorized malware attack as well as a zero-day attack based on static behavior, to detect and prevent data leakage, unauthorized use and transmission of sensitive information, and to reduce insider threats by detecting the inappropriate actions that can lead to malware infections or data breaches, etc. The Bank has also implemented a thorough Data Leakage Prevention scheme to safeguard the data of its clients and the bank itself.

Comprehensive annual maintenance contracts (AMCs) and service level agreements (SLAs) were established with partners of major data center equipment manufacturers to guarantee 24x7 servicing for all active data center and disaster recovery site equipment. With the upgrade to the monitoring system of the data center and disaster recovery site, the bank is now able to proactively monitor all system parameters and take appropriate preventative action. Additionally, BRAC Bank has implemented the ITIL framework of best practice recommendations to ensure complete IT service management.

The BRAC bank believes integrated cyber protection and digital transformation to be essential. As a digitally oriented bank, BRAC Bank has built a comprehensive cyber security roadmap and is aiming to equip itself with the finest personnel, security solutions, processes, and procedures. BRAC Bank utilizes premier worldwide external organizations to undertake assessments and regularly assesses its cyber security posture and future readiness.

J. Implementation of BASEL- III

To cope up with the international best practices and to make the bank's capital shock absorbent 'Guidelines on Risk Based Capital Adequacy (RBCA) for banks was introduced by Bangladesh Bank as per BASEL III. BASEL III framework has three main components referred to as pillars:

- Pillar I addresses minimum capital requirement;
- ii. Pillar II elaborates the process for assessing the overall capital adequacy aligned with risk profile of a bank as well as capital growth plan; and
- iii. Finally, Pillar III gives a framework of public disclosure on the position of a bank's risk profiles, capital adequacy, and risk management system.

BRAC Bank has fully complied with all the directives provided by the Central bank from time to time, starting from Pillar I, II and III reporting requirements to periodic Stress Testing activity etc. Formation of BASEL Steering Committee chaired by the Managing Director of the bank helps us to ensure supreme governance and strict regimentation at execution level. As yet, BRAC bank has been able to successfully implement the phase in transition arrangement for Basel III, which started from the year 2015 and ended in 2020.

As per RBCA Guideline, all scheduled banks are required to calculate Capital to Risk Weighted Asset Ratio (CRAR) based on 'Solo' basis as well as on 'Consolidated' basis. The calculation of CRAR under Basel III has been made as per "Guidelines on Risk Based Capital Adequacy as issued by Bangladesh Bank vide BRPD Circular no. 18 dated December 21, 2014 and subsequent related circulars of Bangladesh Bank.

ransitory effect. According to IAS 12, the Bank recognizes the deferred tax on this particular provision, creating a deductible temporary difference to the degree that it can be applied as a credit. The Specific provisions for loans are not tax deductible under local tax regulations. So, when calculating taxable income, the loan loss provision charged to the profit and loss account is added back to income. However, the tax office will accept the loan recovery or write-off as a legitimate tax expense. The Bank will either make a recovery or write off the loans at some point in the future; thus, this item only has It is will be reversed once the underlying bad debt is either repaid or cancelled Deferred tax on Specific provision on loans and advances red tax on Fixed assets including intangible assets

* In Standalone regulatory capital calculation, fair value gain of BDT 8, 233, 329, 677 on investment in subsidiaries and associates arisen out of application of IFRS 9 for the measurement of equity investment in subsidiaries and associate at fair value. The fair value gain/loss reported as FVOCI directly as part of equity as per IFRS 9. In absence of any specific guidelines for the treatment of Fair value gain/loss in RISK Based Capital Adequacy guidelines by Bangladesh Bank, the fair value gain /loss has not been considered as part of Tier 1 capital. However, as this has emerged from implementation of IFRS 9 (which elue gain/loss been considered as component of Tier-I capital as per international practice, the standalone Regulatory Capital to Risk-weighted Asset Ratio (CRAR) would have to effect in 2018), we have requested Bangladesh Bank for their guidance on the same. While the fair value gain /loss is a part of Tier 1 capital according to the recommendation of internation Managing Director BRAC Bank PLC Manufacture Carry Co. Bank Pa Co.

Off-Shore Banking Units

Notes to the financial statements as at and for the year ended 31 December 2024

1 Status of the units

Off-shore Banking Units of BRAC Bank PLC., governed under the rules and guidelines of Bangladesh Bank. The bank commenced the operation of its Off-shore banking Unit from 2010 after obtaining necessary approval from Bangladesh Bank.

1.1 Principal Activities

The principal activities of the units are to provide all kinds of commercial banking services to its customers through its off-shore Banking units in Bangladesh.

2 Summary of significant accounting policies and basis of preparation

2.1 A summary of the principle accounting policies which have been applied consistently (unless otherwise stated), are set out below:

a) Basis of accounting

The off-shore Banking Units maintain its accounting records in USD from which accounts are prepared according to the Bank Companies Act 1991, International Financial Reporting Standards and other applicable directives issued by Bangladesh Bank.

b) Use of estimates and judgments

The preparation of financial statements requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses, actual results may differ from these estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Revision of accounting estimates are recognised in the period in which the estimate is revised and in any future periods affected.

c) Foreign currency transactions and translations to presentation currency

Foreign currency transactions are converted into equivalent functional currency i.e. USD using the exchange rates ruling on the dates of respective transactions as per IAS -21" The Effects of Changes in Foreign Exchange Rates".

All revenue items have been translated to presentation currency i.e. BDT at average rate and all balance sheet items except retained earnings were translated to presentation currency at the closing rate. Any resulting differences have been recognised as foreign currency translation

Commitments for outstanding forward foreign exchange contracts disclosed in the financials are translated at contracted rates. Contingent liabilities/ commitments for letter of credit and letter of guarantee denominated in foreign currencies are expressed in Taka tarms at the rates of exchange ruling on the balance date.

2.2 Reporting period

These financial statements cover one calendar year from 1 January to 31 December 2024.

2.3 Cash and cash equivalents

For the purpose of presentation in the cash flow statements, cash and cash equivalents includes cash in hand and cash at bank, highly liquid interest bearing investment/securities with original maturities of less than three month.

As per IAS 7 Statement of Cash Flows, cash flow statement can be prepared either in direct method or in indirect method. The presentation is selected to present these cash flows in a manner that is most appropriate for the business or industry. The method selected is applied consistently. As per BRPD 14 deted 25 June 2003, cash flow statement should be a mixture of direct and indirect method.

2.4 Loans and advances

a) Loans and advances of Off-shore Banking Units are stated in the balance sheet on gross basis.

b) Interest is calculated on a daily product basis but charged and accounted for on accrual basis. Interest is not charged on bad and loss loans as per guidelines of Bangladesh Bank. Records of such interest amounts are kept in separate memorandum accounts.

2.5 Provision for liabilities

A provision is recognised in the balance sheet when the unit has a legal or constructive obligation as a result of a past event and it is probable that an outflow of economic benefit will be required to settle the obligations, in accordance with the IAS 37 " Provisions, Contingent Liabilities and Contingent Assets".

2.6 Genera

a) Figures appearing in these financial statements have been rounded off to the nearest Taka and rearranged wherever necessary.

DESCRIPTION OF TRUSTEE

Prime Bank Investment Ltd (PBIL), a subsidiary of Prime Bank Ltd started its journey from April 28, 2010 vide certificate of incorporation no. C-84266/10. It is one of the leading investment banks of the country with a paid-up capital of BDT 3,000 million. The PBIL has been operating actively in the capital market since 2006 and its management has over one decade of experience. The Board of Directors consists of highly experienced scholars including economists and the people with entrepreneurial records of accomplishment and business development.

The functions of investment banking were separated from Prime Bank Limited by forming a subsidiary company in terms of Bangladesh Bank's BRPD circular no. 12 dated 14 October 2009. Bangladesh Securities and Exchange Commission (SEC) thereafter issued a full-fledged merchant banking license in favor of Prime Bank Investment Limited, vide letter no. SEC/Reg/MB/SUB/2010/03/208 dated 02 June 2010 with effect from 01 June 2010.

Being one of the largest investment banks in the country, the PBIL offers various services such as mergers, acquisitions related services, business valuation, syndication and structured finance, issue management, corporate advisory, trustee, underwriting, and portfolio management services to its clients. Considering its strong clientele base, expertise of its management and support from the parent company, the PBIL has the competitive advantage in providing investment banking related services to its clients.
